## **Budget Guide**

A budget serves many purposes. In addition to its inherent value as a resource and spending plan for the City, it informs the public about the City's financial Strategies and Provides the documentation needed for other financial-related matters such as audits, loans, and grants.

The goal of the City's annual budget is to provide a plan that allocates resources to meet the needs and desires of Hanford residents. The budget is one way in which the City Council and City staff responds to the community's needs. It balances City revenues and costs with community priorities and requirements. The City's fiscal year is July 1st to June 30th.

In preparing the annual budget, City staff reviewed prior fiscal years and estimated the expenditures and revenues anticipated for the next year. As part of this review, City Council directed staff to review and analyze all functions to determine the appropriate service levels and staffing needs.

As a result, this annual budget incorporates revenues and expenditures that are expected to be incurred during the fiscal year.

## Budget Strategies & Policies

The City of Hanford has developed broad policy direction through the development of budget strategies that establish long-term policy guidance for conducting the City's financial activities. The City Council has established these policies to meet the following strategic objectives:

### Budget Strategies

**Strategic Focus** - The City's financial management should be strategic, reflecting the Council's and the community's priorities for service while providing resources that realistically fund routine operations.

**Fiscal control and accountability** - The City's financial activities should be fiscally sound and accountable to the City Council through the City Manager.

**Clarity** - The City's financial planning and reporting should be clear and easy to understand so that all participants, the Council, the community, and staff can productively participate in making good decisions.

**Long-term Planning** - The City's financial planning should emphasize multi-year horizons to promote long-term planning of resource uses.

**Flexible and cost effective responses** - The City's financial management practices should encourage a mission-driven organization that responds quickly and straightforwardly to community demands. The City's management should flexibly respond to opportunities for better service, should proactively manage revenues, and should cost-effectively manage ongoing operating costs.

In addition, the City Council has adopted policy parameters for the City's fiscal management. Following is a summary of those policies.

### Fiscal Policies

**Financial Activity Reporting** - The City's financial activity will be reported in a variety of funds, which are the basic accounting and reporting entities in governmental accounting. The City's accounting structure will make it possible:

To present fairly and with full disclosure the financial position and results of financial operations of the funds of the City in conformity and generally accepted accounting principles, and

To determine and demonstrate compliance with finance-related legal and contractual provisions.

**Management Responsibility** - The City Manager shall provide the City Council with a mid-year review of financial activities in February of each year. The review will compare annual budget projections with actual results.

**Reserves** - The City will maintain reserve funds to:

Stabilize the City's fiscal base for anticipated fluctuations in revenues and expenditures;

Provide for nonrecurring, unanticipated expenditures; and

Provide for innovative opportunities for the betterment of the community.

The following reserves and special funds have been established:

**Contingency Reserve** - The purpose of this reserve is to be prepared for possible future revenue reductions and to generate interest income.

**Replacement Funds** - The purpose of these funds are to provide sufficient funds for the

## Budget Strategies & Policies

### Annual Budget and Financial Plan

The City Manager will present an annual budget and financial plan and periodic financial information to the City Council, setting forth the following information:

Actual revenues, expenditures, reserve balances, and fund balances for the prior fiscal year;  
Estimated revenues, expenditures, reserve balances, and fund balances for the current fiscal year;  
Projected revenues, expenditures, reserve balances, and fund balances for the next fiscal year;  
Articulated priorities and service levels to be achieved by the organization over the next year;  
Capital Improvement Program for the next five years.

### Appropriation Control

Appropriation of fiscal resources is the responsibility of the City Council and the City Manager.

Appropriations requiring Council action are:

- Appropriation of reserves, except replacement reserves;
- Transfers between funds;
- Appropriations of any unassigned revenues - unassigned revenues are those revenues that are not associated with a particular business or service unit; and
- Inter-fund loans.

Appropriations requiring City Manager action are:

- Transfers within a division;
- Appropriation of unbudgeted assigned revenues - assigned revenues support a specific business or service unit and allow expansion or contraction of that unit in response to demand as manifested by receipt of assigned revenues; and
- Appropriation of replacement reserves.

### Debt Management

The City Council maintains a Debt Management Policy. This policy addresses inter-funding borrowing, short-term borrowing, long-term borrowing, and debt issuance. The policy provides guidance for ensuring that financial resources are adequate to meet short-term and long-term service objectives and that financing undertaken by the City satisfies certain clear objectives which allow the City to protect its financial resources in order to meet its long-term capital needs.

### Investments

The City maintains an Investment Policy in conformance with California Government Code. The policy addresses the objectives of safety, liquidity, and yield with respect to the City's financial assets.

### Fees and Charges

The City Council will annually adopt a schedule of fees and charges. The fees and charges will be set to provide adequate resources for the cost of the program or service provided.

### Purchasing

The City will maintain a purchasing policy designed to support and enhance the delivery of governmental services while seeking to obtain the maximum value for each dollar expended.

## Budget Strategies & Policies

### Performance Measures

The City Manager will annually develop performance measures and assess how efficiently and effectively the functions, programs, and activities in each department are provided and for determining whether program goals are being met.

### Funds of the City of Hanford

Governmental accounting systems are organized and operated on a fund basis. A fund is a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances. Funds are used to segregate the City's financial activities in categories that attain certain objectives in accordance with special regulations, restrictions, or limitations.

### Basis of Accounting & Budgeting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are receivable. Grants and similar items are recognized as revenue as soon as all eligibility requirements are met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

## City Council

The Hanford City Council consists of five members, elected by district to four-year overlapping terms. Council members must be residents of the city. The Mayor conducts the Council meetings and represents the City on ceremonial occasions.

The City Council serves as the policy board for the municipality. As an elected "Board of Directors", the City Council provides policy direction, establishes goals, and sets priorities for the City government. One integral tool the Council uses to set policy is this annual budget document that establishes the approved programs, projects and services. By establishing the annual budget, the City Council funds programs, implementing their priorities and focus. In addition to serving as the policy makers for the community, the City Council is responsible for numerous regional bodies and jurisdictions to ensure the perspective and priorities of the City of Hanford. The City Council is also responsible for numerous land use decisions within its borders, including the General Plan.

The City Council appoints the City Manager, City Attorney, and all members of advisory boards and commissions. Boards and commissions are advisory to the City Council with the exception of the Planning Commission which has officially been delegated some decision parameters. While seeking input, the City Council retains ultimate authority and responsibility for setting public policy.

## City Manager/ City Clerk

City Manager/City Clerk Division is responsible for providing information and recommendations to the Council, implementing council policies, and guiding the day-to-day management of the City. The City Manager provides direct supervision to all of the City Department Heads, except its City Attorney, a separate council appointed official.

The City Clerk serves as the liaison between the public and the City Council and is the local official for elections, the Public Records Act, the Political Reform Act and the Brown Act. The City Clerk ensures that all City Council actions are properly executed, recorded and archived. As the local elections official, the City Clerk assists candidates in meeting their legal responsibilities before, during and after an election. The City Clerk is also responsible for the preservation and protection of the public record. By statute, the clerk is required to maintain and index the Minutes, Ordinances and Resolutions adopted by the legislative body. The City Clerk ensures that other municipal records are readily accessible to the public.

## Finance- Accounting

Finance Division provides financial services for all city departments. Department operations include general accounting services, financial planning and reporting, administering debt service obligations, investments, payroll, accounts payable and receivable, and business tax. General accounting services include maintaining the general ledger system, chart of accounts, preparing daily cash deposits, reconciling bank statements, and maintaining historical records of the City's financial performance.

Financial planning and reporting includes the coordination and preparation of annual budgets; annual and special audits; State Controller's Reports; issuing mid-year financial reports; preparing the cost allocation plan; calculating the annual appropriation limit; and maintaining the financial information system.

The City's investment portfolio is managed in accordance with adopted policies and interest is allocated in accordance with generally accepted accounting principles.

Payroll is processed bi-weekly and quarterly reports are filed with taxing authorities and regulatory agencies. Staff coordinates employee benefit coverage and reporting with the Personnel Department.

Additionally, interdepartmental services such as the main phone line, mail distribution, and bid openings are handled by the department.

## Finance- Utility Billing

Utility Billing Division is responsible for providing courteous and efficient utility billing services to City water, sewer, and refuse customers. The department issues monthly utility bills, administers the meter reading system, and coordinates customer service orders (service stops, starts, and questions).

The City has converted from a manual meter reading system to an automated reading system. Using the automated reading system, staff has the ability to provide more efficient service to customers by having the ability to collect meter data remotely without having to physically visit and manually read the water meter. The water meters are read automatically by way of radio signals. While the City will still need access to the metering equipment for maintenance on a periodic basis, the remote meter reading technology provides many benefits to both the customer and the City, such as convenience, accurate and consistent meter reads, leak detection, and enhanced customer service.

The City currently has approximately 15,500 utility customers.

## **City Attorney Legal Services**

The City Attorney's office provides legal advice and services to the City Council and City staff. A review of legal issues ensures that recommendations, policies and administrative procedures are undertaken after consideration of sound professional advice. At Council direction, the City Attorney's office may also provide for appropriate representation for the City in all legal proceedings.

General legal services are provided through a contract with the law firm of Griswold Lasalle Cobb Dowd & Ginn LLP. There is one designated City Attorney, but other lawyers at the firm are available for additional expertise and assistance as needed.

## Planning

Planning Division administers the General Plan in accordance with local policies, ordinances, and state laws to ensure orderly community growth. The Planning Division is responsible for processing development proposals, maintaining the General Plan, the Hanford Zoning Ordinance, Historic Preservation, and annexations. Planning operations are overseen by the Community Development Director.

The Planning Division currently operates with a part-time Senior Planner, as well as the Community Development Manager, to carry out the Planning duties; however, with the increase in development and the General Plan Update, the Planning Division will need a Project Manager (to oversee and manage the General Plan Update) and Senior Planner. The Project Manager is a temporary position and will be funded through the (Capital Improvement Project) General Plan Update fund. The Senior Planner will focus on all current planning projects which include: site plan review, administrative approvals, variances and all ministerial review. The Planning Specialist will focus on sign permits, county referrals, and assisting the counter on planning related questions.

The division prepares a number of studies and reports during the year to assist in planning throughout the City. The Planning Division also provides technical and administrative support to the Planning Commission, and the City Council. The Planning Division is a general fund account and is funded by fees collected from applications submitted for various projects within the city.

## Building Inspection

Building Division issues building permits for construction and repair projects within the city. The division performs plan reviews on all projects prior to construction to verify compliance with the current adopted building codes, state laws, Hanford Municipal Code, and other pertinent codes and laws. The division also performs field inspections of these projects, during construction, to verify compliance with the approved construction drawings, building codes, state laws, Hanford Municipal Code, and other pertinent codes and laws. Also, within the Building Division is the Code Compliance Section. Code Compliance enforces the Hanford Municipal Code, and applicable building codes, state housing laws and other pertinent codes and laws applying to existing buildings and structures. Code Compliance is currently about 90 percent complaint based. Complaints are prioritized when received, and inspections performed to verify the complaint and gain compliance, if required. Both the Building Division and Code Compliance Section ensure that all new and existing buildings and structures comply with national, state, and local building, and health and safety codes to safeguard life, health, and property of the residents and public that use the built environment we live in.

## City of Hanford Public Housing Authority

The Housing Authority is an entity whose revenues are received from administrative funds from Community Development Block Grant (CDBG), Home Investment Partnership Program (HOME), and other grant funds.

The functions of the Housing Authority are to enhance the viability of the community by increasing, improving and preserving the supply of decent affordable housing, to manage the City's Business and Housing Loan Portfolio, to revitalize neighborhoods, expand economic opportunities, and improve facilities and services principally for very low to moderate income families. The Authority also facilitates a successful business environment in the City in order to grow and retain the existing business base and attract new businesses and industries. These tasks help remove barriers to growth, provide accountability for taxpayer dollars, and ensure results for programs aimed at making a difference in people's lives. The Community Development Manager will serve as staff to the Successor Agency to the Community Redevelopment Agency of the City of Hanford, will manage the activities to finalize the dissolution of the Redevelopment Agency, and process City-owned property leases as required.

The Housing Authority is responsible for the administration, coordination, monitoring, and implementing grants in accordance with State and Federal regulations. Funding requests may utilize Community Development Block Grant (CDBG), HOME funds, and various Federal or State grants that may be awarded from time to time.

## **CDBG Entitlement**

Community Development Block Grant (CDBG) Entitlement Program - The City of Hanford is a CDBG Entitlement jurisdiction, which means it gets annual funding directly from HUD. Funds are to be used to develop a viable community by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons and/or areas.

The City of Hanford utilizes CDBG Entitlement funds to carry out a wide range of community development activities directed toward revitalizing neighborhoods, economic development, and providing improved community facilities and services. Programs and projects include ongoing Code Enforcement activities, park improvements and neighborhood paint programs.

Staff is responsible for all phases of program's implementation and must ensure that the programs are administered in accordance to the applicable federal regulations. Revenue is received through CDBG Entitlement Grant funds.

## **CalHOME Program**

CalHOME Program - The State of California, through the Cal Home Program provides funding to cities and counties for housing rehabilitation and first-time homebuyer activities. Utilizing Cal Home funds, staff implements the City's Home Sweet Home and Housing Rehabilitation programs, designed to provide affordable housing opportunities and preserve the City's existing housing stock. Through these programs, deferred loans are offered to qualifying very low to low-income households whose income is at or below 80% of Kings County Median Income.

Staff is responsible for all phases of the program's implementation and must ensure that the programs are administered in accordance to the applicable state regulations.

Revenue is not projected on a regular basis as the loan is deferred for 30-years. Revenue (payoff) is expected at the refinance, sale and/ or transfer of title or at the end of the loan term, whichever occurs first.

**Successor Agency  
To City of Hanford  
RDA**

The Successor Agency To The City of Hanford Redevelopment Agency was created pursuant to AB1X26 legislation that dissolved California Redevelopment Agencies. The City Council of the City of Hanford is the governing board of the Successor Agency. The activities of the Successor Agency are overseen and approved by a seven member oversight board. The Successor Agency is responsible for "winding down" the activities, disposing of assets, and paying off recognized debt of the former Redevelopment Agency.

Revenue to complete the required tasks may come from sale of assets and allocations from Kings County of formerly titled "Tax Increment Property Tax Revenue".

## Police- Support Services

Support Services Division oversees a variety of units and specialty assignments. These include The School Resource Officer Unit, the Police Explorers Program, the Kings County Narcotics Task Force, the Communications Unit, the Records Unit and the Investigative Unit. The Investigative Unit provides direct service to the public and support services to other divisions and units within the Police Department. The Investigative unit is called upon to investigate serious crimes within the community. These crimes cannot typically be handled by patrol officers due to the complexity or seriousness of the crime. The Detectives assigned to the Unit receive specialized training in the investigative techniques that these serious crimes entail. Some of the additional duties handled by the Investigative Unit are Concealed Weapon Permits, Taxi Cab Monitoring, specialized interviews of all molestation victims, computer crimes and all sex, arson and drug registrations.

The Support Services Division also oversees the evidence technician that is responsible for the cataloguing of all evidence coming and going from the police department.

## Police- Records

Records personnel perform a variety of duties that range from administrative to clerical support. These services are provided to Hanford police staff and to the general public at the front counter and on the telephone.

As the custodian of records the security and proper handling of documentation is the keystone of any successful law enforcement operation. The majority of paperwork generated by department personnel is processed through the Records Division. The Records Division is the custodian for all police reports that require photocopying, distributing and filing. This includes arrests, traffic accidents, incidents and other miscellaneous reports.

Records personnel are responsible for preparing arrest and report packages for the District Attorney's Office and processing citations to the courts, as well as distributing other paperwork to various local and state agencies.

## Police-Communications

Communications Division is the primary answering point for all emergency and non-emergency requests for police, fire and medical assistance. This service is provided to the Cities of Hanford and Lemoore.

Police dispatchers monitor five computer screens, answer incoming 9-1-1 emergency calls, provide information and advice to citizens, provide current crime information to officers and enter calls for service into our CAD system.

The dispatchers are responsible for prioritizing calls and workload, sending officers to calls, maintaining an accurate status on each on-duty officer, entering wanted or stolen vehicles, missing persons and guns into the nationwide database to provide information to other agencies, as well as documenting every call, every status change, and every request or entry that the police department receives.

## Police- Operations

Operations Division is comprised of Patrol, Reserves, Gang Task Force, Gang Resistance Education and Awareness Training, Graffiti Abatement, Police Volunteers, the Central Valley Regional SWAT Team, Problem Oriented Policing Unit, and the Traffic Unit.

The backbone of the Hanford Police Department is the patrol force, whose primary function is to provide rapid response to emergency and non-emergency calls for service, traffic enforcement, reporting and documentation of crimes and unusual incidents, arrests of suspects, resolution of disputes, and random patrol of our residential and business communities.

Officers participate in community policing which is a philosophy that promotes organizational strategies, which support the systematic use of partnerships and problem solving techniques, to proactively address the immediate conditions that give rise to public safety issues, such as crime, social disorder, and fear of crime.

## Police- Traffic Enforcement

Traffic Unit investigates traffic collisions, enforces the provisions of the California Vehicle Code and conducts DUI checkpoints.

In addition, the unit administers several grants from the Office of Traffic Safety (OTS) and conducts educational presentations for local school districts.

The Traffic Unit acts as a liaison to the public and patrol officers to address city-wide traffic issues through identification and analysis to develop effective response strategies with enforcement, education and engineering.

## Police- Multi Agency Task Force

The Multiple agency task force is comprised of law enforcement personnel from agencies within Kings County. It is supervised from management personnel from within participating agencies on a rotational basis.

The task force is responsible to respond to citizen complaints of drug sales and gang activity, conduct complex investigations into persons or organizations involved in criminal behavior or posing a threat to the safety of the community. They are also tasked with providing information to citizen groups and other law enforcement personnel.

Although not consistent, revenue sources consist of state and local grant monies as well as asset forfeiture seizures.

## Police-School Resource Officer

School Resource Officer (SRO) Unit is responsible for the overall safety and security of the students and faculty of their respective assignments. They patrol the campus during school hours to serve as a deterrent to unlawful activity and have one on one interaction with the students.

Although the Resource Officer's primary function is to provide law enforcement services to the schools, they also provide a positive role model to the students. They are active in programs such as the Junior Police Academy, the Explorer Program and the Gang Resistance Education and Training Program.

The high school district funds fifty percent of the assigned officers regular salary and one hundred percent of overtime for school related functions.

The elementary school provides ninety thousand dollars toward the salary of the one officer assigned to the position.

## Police- Problem Oriented Policing

Problem Oriented Policing Unit is currently comprised of two sworn officers from the operations division. Their primary function is to address clusters of incidents which are similar in nature and develop solutions which are preventative in nature.

In keeping with the Community Oriented Policing Philosophy their primary objective is to involve the community, other public service agencies and the private sector in the reduction of crime or other related community concerns. Emphasis is placed on identifying problems, there root causes, developing custom made responses and subsequently re-evaluating there effectiveness.

Based on the nexus gangs and drugs have on crime, the unit also places considerable emphasis in working with the Kings County Gang and Narcotics Task Forces addressing issues having a direct impact on crime trends within the city.

## Police- Animal Control Services

The Animal Control Unit consists of two Animal Control Officers that oversee community compliance issues related to animals.

These two Animal Control Officers respond to investigate animal abuse allegations, vicious animal calls and annoying animal complaints. They conduct inspections of residences for compliance with regulations regarding, breeding, licensing and multi-pet permits.

The Animal Control Officers act as a liaison between the community, the Kings County Animal Control Shelter and the Hanford Police Department. They continually evaluate their response to community concerns and develop strategies to successfully implement their mission to protect the community from vicious animals, to protect the animals from negligent owners and help the citizen be responsible pet owners by licensing, altering and caring for their pets.

## Fire- Administration/ Suppression

Suppression and Emergency Response Division provides essential core services to support all areas of the Department including the order and delivery of departmental operating supplies inventory and equipment and the management of the emergency service communications systems to ensure the safety of the public and all employees. This is done to support the emergency response personnel in order to provide responsive and professional service to the public. Additionally, the Suppression and Emergency Response Division provides all risk emergency services including fire suppression, emergency medical care, hazardous material response, and fire hydrant maintenance, maintenance of the fire apparatus fleet and equipment, and company building inspections in line with the Department's service level objectives. Furthermore, mandated and continuing education training is provided to all department members. Training is consistent with requirements as described by California State Fire Training Division, National Fire Prevention Administration, CAL-OSHA, and Federal requirements.

The Hanford Fire Department makes every effort to be an innovative and progressive organization in order to meet the changing demands of the City. One aspect of this innovation can be seen in the efforts to utilize technology, such as traffic light pre-emption, mobile mapping, and mobile data terminals to support the department's goals. All department members are committed to making a difference in our community.

## **Fire-Capital/ Equipment Replacement**

The Fire Capital & Equipment Replacement Reserve is in place to ensure replacement funding for fire safety equipment and capital items. Staff is responsible for ongoing evaluation of safety equipment and capital items to determine an optimum schedule for maintenance and replacement of equipment as needed in accordance with approved maintenance and replacement fund criteria.

Fire Capital and Equipment Replacement are administered through the Fire Department and is an internal service fund.

Revenue is received from the General Fund through annual replacement charges included in the Fire-Administration/Suppression Budget.

**Parks and Recreation-  
Sports**

Sports Division Facilitates Hanford's Adult sports which include a Spring and Fall Volleyball and Basketball league as well as a Spring, Summer and Fall Mens', Coed and Church Softball Leagues some of which are now playing at Harris Street Ball Park. The division handles the operation and leasing of several facilities including the BMX Track, Youth Athletic Complex, Hanford Joint Education Softball Complex and Harris Street Ball Park. We work with local youth and adult sports organizations to provide space to rent or host leagues, practices and tournaments. Currently we partner with Hanford Elementary School District for use of gymnasium space for our Adult Volleyball and Basketball leagues.

The department is supervised by a Recreation Supervisor with the help of part time employees, facility hosts and contracted staff such as officials, scorekeepers and field maintenance.

**Parks and Recreation-  
Longfield  
Center**

Longfield Center is a drop in facility for local youth and adults. Amenities include a basketball gym, weight room, computer lab, and table games. The facility is used by non profit groups for special events that promote public health, quality of life and family recreation activities.

The City offers a Christmas Party every year to provide gifts to underserved youth. Biannually, the City holds the Longfield Hall of Fame Induction Ceremony to recognize individuals who have been connected to the hall and gone on to achieve success in business, sports or education.

The hall is a safe haven for children providing mentoring and a healthy alternative for Hanford's youth.

This division is home to the Hanford Plunge and Ford Hill Skate Park. The Hanford Plunge is an aquatic facility that includes a wader pool, completion pool and a slide with drop off pool. It is not only used for public swim and private and group swim lessons during summer months but it also acts as the home to the Hanford Piranhas and is also utilized by local year round swim clubs and elementary schools for their end of the year trips. The Plunge is also available for private parties.

Ford Hill Skate Park is located directly next door to the Plunge. It is open 7 days a week from sunrise to sunset and is an unstaffed drop in facility.

Facilities  
Management**

Facilities ran and operated by the Parks and Recreation Department include the Civic Auditorium, the Veterans Building, the Longfield Center, Coe Park Hall, Civic Park and all covered shelters in City of Hanford Parks. Sizes of our halls range from a meeting room for 20 to a hall for up to 600 seated at tables. These venues are all available for rent for private or community events and are often utilized for concerts, weddings, quinceneras, lunches, workshops and meetings. Our facilities are staffed by a team of Facility Hosts and can all be rented at the Parks and Recreation Department office.

**Parks and Recreation-  
Adult/Special  
Services**

Adult and Special Services Division focuses on three areas; senior citizens, special needs population and adults. We provide high quality recreational programs that meet the needs of their diverse interests and abilities.

The Hanford Senior/Veterans Center is the site for drop in activities, exercise programs, enrichment classes and dances. The American Legion and Hanford Senior Inc. are located in the center and offer additional programming for local seniors, adults and veterans.

**Parks and Recreation-  
Community  
Promotions**

The Parks and Recreation Department promotes community and recreational experiences through special events, activities and promotions and presentations. We produce flyers, posters and activities to keep the community informed. We also utilize other advertising options such as the local paper, news stations and booths set up at other community events like the Thursday Night Market. The department is known for sponsoring community events and also plays host to many popular community events such as Cinco De Mayo Celebration, Fall Festival, Movie in the Park Series and the Concert in the Park Series.

This division is staffed by Recreation Leaders and Facility Hosts.

**Parks and Recreation-  
Parks**

The Parks and Recreation Department Parks Division is responsible for maintaining the aesthetic and recreation value of over 208.5 acres of property including City parks, street medians, athletic fields, the City parking lot landscapes, the Industrial Park, Airport Park and the Intermodal Station.

The division additionally designs and constructs streetscape improvements projects within the Downtown District; coordinates the City's annual Tree City U.S.A. recertification application; administers the contracts and inspects the maintenance for 37 Landscape Assessment Districts throughout the City; programs and repairs Citywide irrigation systems; performs annual playground safety inspections; repairs and upgrades existing playgrounds to be in compliance with current ASTM/CPSC safety standards and meet all ADA/ABA requirements; and issues street tree permits.

The Parks Division is funded by general fund revenues.

**Public Works-  
Street  
Maintenance**

Street Division staff are responsible for maintenance and repair of streets, alleys, parking lots, traffic control systems and downtown area street lights, to provide an efficient and safe transportation network. The city's roadway network, comprised of over 216 miles of streets, is the largest single asset owned by the City.

This division performs traffic signal preventative maintenance; repaints curbs, crosswalks, pavement legends and street centerlines; conducts a crack sealing program; installs or repairs sidewalks; administers an efficient leaf pick up program and hangs seasonal banners, holiday garlands and twinkle lighting in the downtown area.

The Street Division is funded by a combination of gas taxes and general fund revenues.

## Public Works- Refuse

Refuse Division staff are responsible for the collection and disposal of residential and commercial solid waste for more than 15,000 residences and over 1,350 businesses.

The division provides green waste, co-mingled recyclable and refuse solid waste collection and disposal services, with a goal to reduce the amount of solid waste being disposed of at the landfill through the use of efficient, cost effective and environmentally sound waste management practices. This division conducts an annual city wide clean-up program; administers a Christmas tree recycling program to divert green waste from the landfill; provides a segregated cardboard collection route for commercial customers and ensures that new businesses implement and maintain recycling programs.

The Refuse Division is funded from user fees charged to customers for refuse services.

## Public Works- Street Cleaning

Street Cleaning Division staff are responsible for cleaning all city streets, alleys and public parking lots to provide a safe, clean and attractive community.

The division objective is to sweep residential streets once a week and the downtown area on a five day a week basis. This requires that over 25,500 curb miles of street are swept each year.

Street sweeping operations are administered through the Street Division and are funded from refuse user fees charged to customers for street sweeping services.

## Public Works- Fleet Maintenance

Fleet Maintenance Division staff ensure that city vehicles are available, dependable, safe to operate, cost effective, and energy efficient. Staff is responsible for purchasing and maintaining all city vehicles and equipment, and for providing scheduled maintenance to reduce overall vehicle operating costs, extend useful life, and minimize downtime.

This division ensures conformance with the Department of Transportation and Department of Motor Vehicle regulations, and the Air Resources Board regulations. Preventative and routine maintenance of the Courthouse carousel and all Visitor Agency vehicles is also the responsibility of Fleet Maintenance.

Fleet Maintenance is an internal service fund. Revenue is received by charging user departments on a cost reimbursement basis.

**Public Works-  
Storm  
Drainage**

Storm Drainage Division staff are responsible for providing a safe, dependable storm drainage system through timely cleaning, repair and maintenance of all facilities. This division maintains a network of over 57 miles of storm drainage pipelines, 30 storm drainage pump stations and over 220 acres of drainage basins.

The division also coordinates with and encourages the Kings County Water District to maximum groundwater recharge through the use of the City's drainage system. Staff also conducts a public education and outreach program to educate the general public about the environmental impacts of disposing unwanted products into the City's storm drainage system.

Storm drainage operations are administered through the Utility Division and are funded from user fees charged to customers for drainage service.

Wastewater  
Treatment  
Plant**

Wastewater Treatment Plant (WWTP) Division staff are responsible for the treatment and recycling of wastewater in an environmentally safe manner to ensure its reuse for irrigation purposes will not endanger health or degrade groundwater quality. This division processes approximately 1.76 billion gallons of sewage each year by operation of the WWTP, a sophisticated, multi-million dollar facility.

The facility is a major part of the City's effort to keep our environment clean and to provide a water resource for irrigation and groundwater recharge. Staff also conducts over 84,000 laboratory tests each year to monitor the performance of the plant; manages reclaimed water usage to ensure compliance with the requirements of state reclamation discharge permits; administers the industrial pre-treatment program; and monitors industrial user compliance through daily observation and weekly analysis of discharge.

WWTP Division is funded by user fees charged to customers for sanitary sewer service.

**Public Works-  
Sanitary  
Sewer  
Collection**

Sanitary Sewer Division staff are responsible for providing a safe, dependable sanitary sewer collection system through timely cleaning, repair and maintenance of all facilities.

This division maintains a network of over 213 miles of sanitary sewer mains and 21 sewer pump stations. The division provides assistance in the implementation of a sewer emergency overflow plan in conformance with the City's sanitary sewer management plan (SSMP). Division staff are also responsible for monthly reporting to the California Regional Water Control Board for compliance with SSMP objectives and requirements.

Sanitary Sewer operations are administered through the Utility Division and are funded from user fees charged to customers for sewer service.

## Public Works- Water Operations

Utility Division (Water Operations) staff are responsible for providing safe, clean water through efficient and effective operation of the City's water system.

This division maintains a network of over 204 miles of water mains, 13 water supply wells, and approximately 15,870 water services. The division also conducts a water conservation program; prepares and distributes an annual consumer confidence report; provides monthly and annual water quality reports in accordance with California Department of Public Health requirements and conducts weekly security inspections of key water system components in accordance with the City's water system vulnerability assessment plan.

Water system operations are administered through the Utility Division and are funded from user fees charged to customers for water service.

## Public Works- Building Maintenance

Building Maintenance Division staff ensure that public buildings are safe, clean, dependable, cost effective and energy efficient. Staff is responsible for cleaning, maintenance and repair services for all public buildings, except city fire stations, and for providing scheduled preventive maintenance on heating, ventilation, and air conditioning systems to reduce overall operating costs, extend useful life, and minimize downtime.

This division evaluates building structural maintenance and equipment conditions annually to determine an optimum replacement schedule; coordinates energy efficiency audits and cost effective upgrades; and administers and tracks community service, boot camp, and juvenile work programs to provide optimum use of services.

Building Maintenance is an internal service fund. Revenue is received by charging user departments on a cost reimbursement basis.

## Dangerous Building Abatement

### **Project Background:**

These funds will be used to facilitate abatement of buildings determined to be unsafe or public nuisances under city or state building or fire codes.

### **Existing Conditions:**

Buildings are determined by the city building department to be unsafe or of a public nuisance.

### **Project Justification:**

Public funds are needed to facilitate the demolition and removal of dilapidated buildings on private properties when considered to be unsafe or public nuisances and when insufficient private funding exists to accomplish the task.

### **Fiscal Implications:**

Funding for this project will be allocated from Accumulated Capital Outlay Reserves. The city will recover costs for demolition and disposal expenses through property assessments collected by the Kings County Tax Collector.

### **Project Budget Summary:**

## ADA Building Modifications

### **Project Background:**

The Americans with Disabilities Act (ADA) requires that public facilities be accessible to all users. The act requires that inaccessible facilities must be brought up to current ADA standards within a reasonable time frame.

### **Existing Conditions:**

Some of the upgrades and improvements needed to comply with ADA requirements include electrically operated doors at city hall, hand rails at various drinking fountains, lever type door handles, accessibility signs and relocation of various mirrors and dispensers, sidewalks and ramps at various public facilities.

### **Project Justification:**

In order to comply with the ADA, upgrades are required at various city facilities.

### **Fiscal Implications:**

Funding for various mandated ADA improvements will be allocated from Accumulated Capital Outlay Reserves.

### **Project Budget Summary:**

## Energy Conservation Projects / Programs

### **Project Background:**

These funds will be used to purchase and install energy saving fixtures and equipment as well as to leverage / match energy efficiency grants that may become available and suitable to our operation.

### **Existing Conditions:**

City buildings and facilities equipped with outdated lighting sources are areas where energy efficient improvements can be made. Energy management systems such as motion detection devices to control lighting use and thermostat controls are examples of possible cost saving opportunities.

### **Project Justification:**

Energy efficiency projects will be selected based upon economic benefits as well as compliance with AB 32 and SB 375 mandates.

### **Fiscal Implications:**

Funding for various energy efficiency improvements will be allocated from Accumulated Capital Outlay Reserves.

### **Project Budget Summary:**

## Corporation Yard Wash Bay Renovation

### **Project Background:**

This project will renovate and expand the existing Corporation Yard wash bay to increase capacity and eliminate delays and clean the equipment at the facility.

### **Existing Conditions:**

The Corporation Yard wash bay was constructed as a single bay facility in the early 1980's as part of development of the Public Works Department Corporation Yard. The single bay facility is heavily used on a daily basis for cleaning refuse trucks, Street sweepers, and other city equipment. The facility is inadequate for the number of vehicles the City currently has and has outlived its useful life.

### **Project Justification:**

This project will replace and expand the existing wash bay facility to provide additional vehicle cleaning capacity. The increased capacity will improve service efficiencies by reducing the time it takes to clean vehicles due to capacity constraints. A bathroom facility will also be incorporated into the project.

### **Fiscal Implications:**

Funding for this project will be allocated from the Refuse Enterprise Reserves.

### **Project Budget Summary:**

## Bastille Building Renovations

### **Project Background:**

The Bastille Building located in the City's Civic Park is a historic building that is beginning to show signs of advanced deterioration due to lack of maintenance funds. A building evaluation and needs assessment report completed in 2015, identified the need to perform extensive renovation improvements in order to preserve the facility and bring back to a leasable condition.

### **Existing Conditions:**

The building is in need of a new roof, seismic upgrades, ADA improvements, and exterior repairs in order to preserve this historic landmark. Improvements are needed to prevent further deterioration of the structure and to bring facility back to a leasable condition.

### **Project Justification:**

This project will fund necessary repairs to the structure to stabilize the building and keep the facility in a leasable condition.

### **Fiscal Implications:**

Funding for this project will be allocated from Accumulated Capital Outlay Reserves.

## Fire Station No. 1 Bathroom Renovation

### **Project Background:**

A leak was discovered in the wall separating the two bathrooms in the crew quarters at Station No. 1. The leak caused extensive damage to the wall and the tile surrounding floor and walls in both bathrooms. Building maintenance isolated the leak to prevent further damage. The bathroom was constructed in 1989 and has not been remodeled since the original construction. This project includes updating the bathroom to current ADA standards.

### **Existing Conditions:**

One of the three showers has been inoperable since the leak was detected. There is damage in the wall and flooring tiles of both bathrooms. The bathrooms are currently not up to current ADA standards and must be remodeled. Two additional existing showers remain in service.

### **Project Justification:**

The bathrooms are showing signs of deterioration including a water leak that caused significant damage. The bathrooms also need to be brought up to current ADA standards. This project will also provide portable showers and toilets to be utilized by the staff during the construction.

### **Fiscal Implications:**

Funding for this project will be allocated from Accumulated Capital Outlay Reserves.

## Longfield Center Re-roofing

### Project Background:

The Longfield Center was built in 1977 to serve the community. Many forms of recreation are represented at the Center. The roofing of both levels was last replaced in 1990 (26 years ago). It is a hot mop, built-up roof designed to last a maximum of 20 years. Crazing, bubbles, and mineral coating loss has greatly affected the integrity of the roof making it a top priority for roof replacement

### Existing Conditions:

In 2014 termites were discovered inside the gym. It was determined that we must tent the facility to eradicate the pests. In FY 15 water infiltration caused a large portion of the stucco in back of the building to fall off. Upon discovery we found the termites are in the ceiling joists. Staff spent \$14,000 to replace 2 sections of roof and repair the stucco. Those measures were only temporary to get through this winter season until a complete roofing replacement is completed.

### Project Justification:

The existing condition of the roof, if allowed to continue, will damage larger portions of the structure and invite additional termite and dry rot damage. Termite treatment is to be done after the existing roof is torn off and before the new roof is installed.

### Fiscal Implications:

Funding for this project will be allocated from Accumulated Capital Outlay Reserves and Building Replacement Reserves.

## Hanford Police Department Re-roofing

### Project Background:

The police department was built in 1976 after formerly occupying the basement of the Civic Auditorium. Its roof was replaced in 1993. It is a built-up, hot asphalt type roof designed to last no more than 20 years. It is now 23 years old. The roof displays typical age defects of mineral loss, bubbles, cracks or crazing, and cap sheet slippage. Replacement is now required.

### Existing Conditions:

The mineral cap sheet protects the remaining layers from UV deterioration and water exposure. The existing cap sheet surface has lost much of its mineral surface. Heat and inadequate attachment has lead to cap sheet slippage allowing areas not protected by minerals to be exposed to the elements. Leakage has occurred over the car port which staff has recently replaced with a 50 ft section. Bubbles are extensive.

### Project Justification:

Replacement of the roof will provide protection for the building for a minimum of 20 years. It is imperative the roof is replaced in a timely manner to prevent further deterioration.

### Fiscal Implications:

Funding will come from the Building Equipment Reserves and Accumulated Capital Outlay Reserves.

## Civic Auditorium Chimney Brick Repair

### **Project Background:**

After the failure of the Hanford Fox Theater ceiling it was decided and approved by council to have a buildings safety assessment of four of the City's oldest buildings. The Auditorium was one of those buildings. Lane Engineers conducted an analysis that determined that the bricks at the very top of the highest portion of the building above the stage are unsafe and need to be replaced.

### **Existing Conditions:**

The chimney at the Auditorium vents exhaust gases from the buildings steam boiler which provides heat for the main hall. Staff has observed that bricks have fallen from the inside layers of the chimney down to the bottom of the shaft. This proposal is to remove the interior layers of brick leaving just the face bricks to 3ft below the top. New bricks and reclaimed bricks will then be set in new mortar restoring the structural integrity.

### **Project Justification:**

Public safety is at utmost importance while in and around City facilities. Rebuilding the upper brick structure of the chimney will insure we keep to that promise and prolong the life of this cherished facility.

### **Fiscal Implications:**

Funding will come from the Accumulated Capital Outlay Reserves.

## Coe Park Roof Replacement

### Project Background:

The Coe Park building was constructed in the 1940's by the Army Corps of Engineers. The building was remodeled and updated in 1998 to make building more suitable for city programs. The roof was part of the 1998 remodel and is asphalt shingle with a 20 year life span. During recent storms staff determined that exposure and vandalism has accelerated the deterioration of the roof and has caused significant leaks.

### Existing Conditions:

Sections of the roof in several places have been stripped off by vandalism exposing the nailed areas of the shingles. The ridge caps have been largely destroyed from physical damage and exposure. Left undisturbed, the roof could last another two years with patching but the physical damage has required the need for it to be replaced at this time.

### Project Justification:

Replacement of the roof will provide protection for the building for a minimum of 20 years. It is imperative the roof is replaced in a timely manner to prevent further deterioration and damage.

### Fiscal Implications:

Funding will come from the Building Equipment Reserves and Accumulated Capital Outlay Reserves.

## Police Department - Locker Room Expansion

### Project Background:

Purchase of the Fadenracht building and the relocation of the evidence and investigation units from portions of the Police Department main building have create opportunities to repurpose the existing space that was created.

### Existing Conditions:

The current armory is too small and is not safe for its intended purpose. There are several other small spaces and rooms that will be vacated when evidence moves to the new building. There are three traffic officers sharing a small room and the existing men's locker room is not large enough to handle the current staff.

### Project Justification:

This project will allow officers to have a modern space where they can clean their weapons that is properly ventilated and is large enough to serve its purpose. The project will also provide for secure storage of department firearms that are not currently assigned to officers and will also remodel two smaller inefficient rooms and made them into a larger office for traffic officers.

### Fiscal Implications:

Funding will come from the Police Impact Fees.

### Project Budget Summary:

## Police Department - Building Demolition

### Project Background:

Existing buildings located at 416 and 418 North Doudy Street are the current locations of the Police Department investigations and evidence storage units. With the purchase remodeling of the Fadenracht building located at 422 N. Doudy Street, the Police Department investigations and evidence storage units will be relocating to the newer facility.

### Existing Conditions:

The existing buildings located at 416 and 418 North Doudy St. are in disrepair and have outlived their usefulness. The buildings are substandard and have no historical significance.

### Project Justification:

Demolition of these buildings will allow for the creation of additional parking for Police Department staff. Existing parking in this vicinity of the police station is insufficient to meet the needs of its current staff.

### Fiscal Implications:

Funding will come from the Police Impact Fee Reserves.

### Project Budget Summary:

## Public Works Technology Upgrades

### **Project Background:**

In order to continue to provide efficient and effective customer service and inventory controls, a Computerized Maintenance Software(CMMS) system is necessary. This project will also include the replacement of the existing antiquated radio system with a new UHF repeated radio system.

### **Existing Conditions:**

The City Public Works Department currently has no automated maintenance management software. All maintenance management is done either by pencil and paper or on spreadsheets and is inefficient. In addition, the existing radio system is antiquated and does not provide adequate coverage.

### **Project Justification:**

The proposed new CMMS system will allow managers to better plan for staff's daily work, manage inventory, and determine if productivity measures are being achieved. The new radio system will allow better coverage and allow staff to communicate more efficiently with the line staff.

### **Fiscal Implications:**

Funding for this project will be allocated from Storm Drain Reserves, Wastewater Reserves, Refuse Enterprise, Water Reserves, and Fleet Replacement Reserve.

### **Project Budget Summary:**

## Sixth Street and Phillips Street Parking Lot Construction

### Project Background:

This project will construct a new public parking lot located at the northwest corner of Sixth Street and Phillips Street. Improvements will include construction of raised planter curbs, landscaping, decorative parking lot lights, sidewalks, drive approaches, pavement, and signing and striping.

### Existing Conditions:

Land was recently purchased for the purpose of constructing a new public parking lot at this location.

### Project Justification:

The new parking lot will add approximately 50 new parking spaces in the downtown area to alleviate parking congestion during peak usage periods.

### Fiscal Implications:

Funding will come from the Accumulated Capital Outlay Reserves and Parking Reserves.

## Fire Station No. 1 Parking Lot Restoration

### Project Background:

This project will remove and replace damaged concrete and asphalt at Fire Station No. 1. The project only includes areas in need of significant repair.

### Existing Conditions:

The driveways on both sides of the station are beginning to crack and damage. Some of the existing pavement sections are cracking under the weight of the fire engines and the cracks are getting significantly worse. Restriping of pavement markings will need to be addressed after all of the necessary repairs are made.

### Project Justification:

This project is necessary to prevent further damage and deterioration of the asphalt and concrete driveways surrounding the station.

### Fiscal Implications:

Funding will come from the Accumulated Capital Outlay Reserves.

## Fire Station No. 3 Equipment and Furnishing

### **Project Background:**

In September 2015, the City Council approved funding to design and construct Fire Station No. 3 at Woodland Drive and 12 Avenue. The allocation did not include purchasing the equipment and furnishings necessary for the station. This project will provide the necessary communications equipment, information technology agreement, tools and equipment for department apparatus and station maintenance, and furnishings for personnel.

### **Existing Conditions:**

Currently, the HFD responds to emergencies out of stations that are fully equipped. This location was selected due to the amount of development and growth in the southwestern region of city and it is in an area where call volume is high in a response times are extended as compared to the other station location sites.

### **Project Justification:**

The construction of Fire Station No. 3 will improve our coverage of the city, reduce response times, and enhance the level of service that the HFD provides to our community. This project is consistent with the goals and objectives established by the City Council and with the Station Location Study which was conducted in 2006.

### **Fiscal Implications:**

Funding for this project will be allocated from Accumulated Capital Outlay Reserves.

## Fire Station No. 2 Asphalt Concrete Repair/Resurfacing

### **Project Background:**

This project will remove and replace portions of the existing asphalt adjacent to Fire Station No. 2. The project will only include the areas that need repair.

### **Existing Conditions:**

This project involves asphalt repair along the east side of Fire Station No. 2. The asphalt on this side of the fire station is severely damaged and needs to be replaced. Restriping of pavement markings will be necessary after all asphalt repairs have been completed.

### **Project Justification:**

The project is necessary to prevent further damage of the deteriorating asphalt on the east side of the station where department vehicles are parked. In addition, injuries and vehicle damage can be prevented if this project is funded and the repairs are completed. The asphalt will continue to degrade if not repaired.

### **Fiscal Implications:**

Funding for this project will be allocated from Accumulated Capital Outlay Reserves.

## Fire Station No. 1 - Relocation of Prevention Office

### **Project Background:**

This project involves relocating the Fire Prevention personnel from Station 1 to the City Offices at 315 N. Douty St. into the southwest corner of the building near the front utility billing desk. This project includes adding walls and counters in the office area to provide adequate space for personnel, equipment, and files. This will put the Fire Prevention division in the same building as the Building Department and clients of the City will be able to complete their business in the same location. Relocating will also improve communication and efficiency between both departments.

### **Existing Conditions:**

Our current Fire Prevention Division consists of three personnel. Two personnel share one office and the third members shares space with our Administrative Support Technician. All prevention files are currently throughout the administration side of Fire Station 1 and space is becoming more and more limited for personnel and storage as our department grows. We do not have room for additional personnel for either the prevention division nor for our fire administration due to the lack of office space.

### **Project Justification:**

Relocating the Fire Prevention Division to the City Offices will improve the communication and efficiency of operations between the Building Department and Fire Prevention Division, who work closely together. This will also improve customer service by allowing our customers to deal with both departments in the same building. Relocation of the Prevention Division will also free up office space at Station 1 for future growth.

### **Fiscal Implications:**

Funding will come from the Accumulated Capital Outlay Reserves

## Civic Auditorium Exterior Painting

### **Project Background:**

The Civic Auditorium has served the community since 1924. The building was last painted between 1988-1992. The building maintenance staff continues to repaint areas most affected by public use each year. This keeps the most conspicuous areas looking fresh and without age. However staff cannot paint the high elevation woodwork, stucco, and details that, left untouched, degrade over time creating dry rot and structure damage.

### **Existing Conditions:**

Wood casements and lattice detail work at all the windows have decayed to a point where the paint no longer provides protection from the elements. Oxidation from the sun and elements have made the paint hue on the exterior stucco different on all sides making it difficult to perform paint maintenance. Metal flashings are leaking from behind which allows water to infiltrate the plaster leaving stains behind the paint and blistering.

### **Project Justification:**

Deferred maintenance has a lasting effect on a structure while going unnoticed until permanent or structural damage occurs. The repainting of the Auditorium will insure the longevity of the building for future generations to enjoy while leaving a clean and refreshed look. The City will also benefit from reduced maintenance costs over the next 10 years or longer.

### **Fiscal Implications:**

Funding will come from the Accumulated Capital Outlay Reserves.

## Civic Auditorium Acoustic Wall Carpet Replacement

### **Project Background:**

The Civic Auditorium is a multipurpose venue that commonly hosts large assemblies, concerts, seminars, etc. Due to its high ceiling and hard floor surface the acoustics of the room must be controlled. One way of achieving this is by placing a soft material either over the whole surface or in a predetermined panel design on the upper and lower walls of the balcony area and staircases. Acoustic carpet is what was chosen to be used for this purpose.

### **Existing Conditions:**

The existing acoustic carpet called "Tretford" was installed in 1982. It has a design life of approximately 20 years. Age, dust, and past leaks have stained and faded the carpet to a point where it can no longer be spot cleaned by maintenance staff. Areas of the material are constantly losing their bond to the substrate.

### **Project Justification:**

The existing carpet is stained and faded and does not provide an acceptable visual appeal the City is trying to maintain with the Civic Auditorium. The City wants visitors and guests that come to the Auditorium for training seminars and functions to leave with a good impression of our facilities and their value to this City.

### **Fiscal Implications:**

Funding will come from the Accumulated Capital Outlay Reserves.

## Fire Station No. 2 - Landscape (Xeriscape) Materials

### **Project Background:**

Over the last 15 years, the HFD has tried unsuccessfully to plant various types of vegetation to improve the aesthetics of the grounds at Fire Station No. 2. This project involves the purchase of xeriscape materials to improve the aesthetics, which will be low maintenance and low water use.

### **Existing Conditions:**

The current conditions of the grounds at fire Station No. 2 are barren, mainly due to the inability of vegetation to grow in the soil. Staff previously had the soil analyzed and were advised that it would be difficult for anything to grow in this soil due to its high alkalinity.

### **Project Justification:**

This project will improve the aesthetics at Fire Station No. 2 by utilizing xeriscape materials which require less maintenance and will utilize less water thereby reducing staff time for maintenance and costs associated with water use.

### **Fiscal Implications:**

Funding for this project will be allocated from Accumulated Capital Outlay Reserves.

## Fire Station No. 5 - Land Acquisition

### **Project Background:**

This project involves purchasing land for a fire station on the east side of Hanford. In 2006, a Station Location Study was completed and three sites/locations were determined for the locations of the next three fire stations in an order to be determined by the need and demand for service. In September of 2015, City Council allocated funding to design and construct Station 3, which will be located at 12th Ave. and Woodland Drive.

### **Existing Conditions:**

The HFD currently responds out of two stations. Station 3 will be constructed on the southwest side of the City to improve response times in that area. Currently, the east side of Hanford is not covered adequately and has poor response times. Building a station on the east side will provide more comprehensive coverage and improve response times. The City owns land for Station No. 4 at Centennial Dr. & Berkshire St. in the northeast part of the city, but the call service demand on the east side is a

### **Project Justification:**

One of the locations identified in the Station Location Study is on the east side for a future station. The new shopping center at Highway 43 and Lacey Blvd. also identifies the need to construct a new eastside fire station once funds are available. The current call density and lower response times occur on the east side of the City which makes the next fire station location on the east side of town a higher priority

### **Fiscal Implications:**

Funding will come from the Fire Impact Fees

## Park Development Oversizing Requirements

### Project Background:

In accordance with City Ordinance, developers are required to mitigate their impacts to parks and recreation programs by constructing qualifying improvements and/or payment of park mitigation impact fees.

### Existing Conditions:

Park mitigation impact fees were established by ordinance in 1990.

### Project Justification:

These funds will be used to reimburse developers for costs associated with park construction in excess of their park impact fee assessment.

### Fiscal Implications:

Funding for over sizing improvements shall be allocated from park mitigation impact fee reserves.

### Project Budget Summary:

		6-Year Funding Allocation

## ADA Parks/Recreation Modifications

### Project Background:

The American with Disabilities Act (ADA) requires that parks and recreation facilities be accessible to all users. The act requires that inaccessible facilities must be brought up to current ADA standards within a reasonable time frame.

### Existing Conditions:

Staff has surveyed our park facilities in conformance with the ADA. A list of modifications has been prepared along with cost estimates.

### Project Justification:

These funds will be used to upgrade our parks and recreation facilities to conform with ADA requirements. Improvements will include modifications to restroom and playground facilities, installation of concrete pathways to various facilities and purchase of handicap accessible picnic equipment and tables.

### Fiscal Implications:

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

### Project Budget Summary:

## Park Refuse Enclosures - Community Garden

### **Project Background:**

This project will involve the construction of concrete block trash enclosures at the City Community Garden which is currently void of an enclosure. A refuse dumpster will then be stored within the enclosure. This project will improve park aesthetics and safety by installing the refuse dumpster in enclosure structure.

### **Existing Conditions:**

Some older community facilities were developed without refuse enclosures. The refuse dumpster is placed inside the garden on soil and is difficult for refuse employees to move and dump.

### **Project Justification:**

### **Fiscal Implications:**

Funds for this project will be allocated from refuse enterprise reserves.

### **Project Budget Summary:**

## Rotary Field Lighting Project

### Project Background:

This project includes the installation of sports lighting within the Rotary Field and moving the chain link fence separating the Bob Hill Sports Complex to the south end of the Rotary Field along North Drive. The lighting improvement will expand the use of the facility for youth and Parks and Recreation sports.

### Existing Conditions:

The Rotary Field is landscaped with turf, three backstops, three 80 yard football fields and soccer goals for practice field play.

### Project Justification:

Adding lighting to the Rotary Field will allow increased usage of the facility by the Hanford Youth Baseball, Hanford Youth Football and the Parks and Recreation Department.

### Fiscal Implications:

Funding for this project will be allocated from park impact fee reserves.

## Coe and Centennial Parks - Basketball Court Resurfacing

### **Project Background:**

The project involves the resurfacing and restriping of the basketball courts at Centennial Park and Coe Park to prevent further deterioration of the surface and improve playability.

### **Existing Conditions:**

The current condition of the asphalt basketball courts are starting to deteriorate due to weather, age, and usage. The surface is starting to break up causing a slippery surface to form and cause issues with playability.

### **Project Justification:**

Resurfacing the courts will provide a new playing surface that would be safer for users and also extend the life of the asphalt courts.

### **Fiscal Implications:**

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

### **Project Budget Summary:**

## Street Median Landscape Renovation

### **Project Background:**

This project will remove the existing landscaping and terminate the irrigation to install stamped concrete in the turn pockets until the width of the landscape area is a minimum of 8 feet in width on various arterial streets. Portions of the existing irrigation will also be upgraded to above ground popups and planting material replaced.

### **Existing Conditions:**

The existing landscape within the medians includes planting material and irrigation in the narrow turn pockets which is labor intensive and creates insufficient work space of maintenance crews. Portions of the medians islands have subsurface irrigation which has plugged and is no longer sustainable and needs upgrading with a new irrigation system. Existing planting materials in some locations are in need of replacement and replenishment of walk on bark.

### **Project Justification:**

The project will substantially decrease labor costs and water consumption within the median islands and will also increase the safety for maintenance crews working in the medians. The project will also beautify the entrances to our community and major shopping outlets.

### **Fiscal Implications:**

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

## Coe Park Arbor Project

### **Project Background:**

This project will construct a new arbor near the Splash pad at Coe Park for family rentals, reunions, birthday parties and Parks and recreation programs.

### **Existing Conditions:**

The existing facility only has one arbor at this time and with the recent addition of a Splash pad there is a demand for additional arbor space for patrons to gather and enjoy the water play feature.

### **Project Justification:**

This project will provide an additional arbor structure to support a growing demand for facility space to accommodate family rentals and parks and recreation programs.

### **Fiscal Implications:**

Funds for this project will be allocated from park impact fees reserves.

### **Project Budget Summary:**

## Hidden Valley Park Pathway Construction Project

### **Project Background:**

There is currently no pathway at Hidden Valley Park from the oak arbor to the new pedestrian bridge. This project would construct a 6 foot wide concrete sidewalk pathway and address ADA accessibility from the oak shelter to connect all amenities together, including the picnic arbors, splash pad, playground, dog facilities and restrooms.

### **Existing Conditions:**

There is no pathway that connects the oak arbor and dog facilities to the new pedestrian bridge, splash pad, picnic arbors, playground and restrooms. Patrons with disabilities are forced to travel to Cortner Street and use the sidewalk to reach many of the park amenities.

### **Project Justification:**

This pathway would create an even level pathway for park patrons to walk on, including persons with disabilities, and to access various park amenities.

### **Fiscal Implications:**

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

### **Project Budget Summary:**

## Centennial Park Pathway Construction Project

### **Project Background:**

The current pathways at Centennial Park are basically dirt with trace amounts of decomposed granite. This project would construct an all connecting 8' wide concrete sidewalk pathway and address ADA accessibility from Hanford-Armona Road into the park and connect all amenities together, including the picnic arbors, splash pad, playgrounds, dog facilities, and Restrooms.

### **Existing Conditions:**

The existing dirt pathway has many potholes with trace amounts of decomposed granite and is not ADA compliant from Hanford-Armona Road into the park facilities. Only a very small portion of the park has ADA accessibility from the parking lot into and around the splash pad, playgrounds and restrooms.

### **Project Justification:**

This pathway would create an even level pathway for park patrons to walk on, including persons with disabilities, and to access various park amenities.

### **Fiscal Implications:**

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

## Youth Athletic Complex (YAC) Concession Building Restoration

### **Project Background:**

Restore and remodel existing structure and restrooms to include ADA / ABA accessibility to and within the facility. The current facility has some structural integrity issues to the stairway leading to the second story and is in need of accessibility upgrades to the restroom portion.

### **Existing Conditions:**

The current facility is approximately 30 years old, is run down and is in need of structural improvements to the stairway leading to the second story which is not used due to the existing condition. Improvements for ADA / ABA accessibility leading to and within the restrooms and other locations inside the structure also need to be upgraded for compliance.

### **Project Justification:**

This facility is a supportive facility to service the youth, family and friends of Hanford Youth Baseball League and tournament play. The facility currently services approximately 700 youth participating in youth baseball from early spring throughout the summer and into the fall.

### **Fiscal Implications:**

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

## Soc Com Field Lighting

### **Project Background:**

This project includes the installation of sports lighting within the city's property (basin fields) located at the Soc Com facility. The lighting improvement will expand the use of the facility for both youth and adult sports.

### **Existing Conditions:**

The City owns the drainage basin property located within the Soc Com facility. The basin area is currently turfed and is utilized for soccer field play.

### **Project Justification:**

Adding lighting to a portion of the Soc-Com facility will allow for increased usage of the facility by the Hanford Youth Soccer League, competitive soccer teams and adult soccer league play. The Hanford Youth Soccer League currently rents portable lights for fall season practice and play.

### **Fiscal Implications:**

Funding for this project will be allocated from park impact fee reserves.

## Highway 198 Monument Entrance Signs

### **Project Background:**

This project will include the installation of decorative monument entrance signs and landscaping located along Highway 198 at the east and west entrances to our community.

### **Existing Conditions:**

There are no existing monument signs along Highway 198 to identify an entrance into our community.

### **Project Justification:**

Entrance monument signs enhance a community's image and also provides a "welcoming feel" to out of town visitors.

### **Fiscal Implications:**

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

## Sidewalk and Miscellaneous Concrete Repairs

### Project Background:

These funds will be used to repair sidewalks, drive approaches and other concrete improvements where city crews will be completing street reconstruction projects or in areas where the improvements are damaged by tree roots.

### Existing Conditions:

### Project Justification:

These funds will be used to repair sidewalks, drive approaches, and other public concrete improvements that are in disrepair and create potential safety hazards.

### Fiscal Implications:

Funding for this project will be allocated from gas tax reserves.

### Project Budget Summary:

## New Sidewalk and ADA Improvements

### Project Background:

These funds will be used to install sidewalks and other concrete improvements in areas currently void of such improvements. Improvement areas will be selected along arterial/collector streets with high pedestrian volume and where existing rights-of-ways exist to facilitate sidewalk installation. These funds will also be used to install accessibility ramps in compliance with American with Disabilities Act (ADA) standards.

### Existing Conditions:

### Project Justification:

Compliance with ADA standards is a federal law. Also, the installation of sidewalks provides pedestrians with a safe walkway located outside vehicular travel areas.

### Fiscal Implications:

Funding for this project will be allocated from gas tax reserves.

## Street Division Maintenance

### Project Background:

Street maintenance is performed by the Public Works Street Maintenance Division through the city's general fund. This project account is established to record that portion of annual street maintenance which will be allocated to gas tax funds.

### Existing Conditions:

### Project Justification:

These funds will pay for labor, maintenance materials, equipment rental, and other contracted services for street reconstruction, resurfacing, and repair projects.

### Fiscal Implications:

Funding for this program will be allocated from gas tax reserves.

### Project Budget Summary:

		6-Year Funding Allocation

## Unscheduled Arterial Upgrades & Traffic Signal Installation

### Project Background:

This fund will be used to reimburse developers who are required to construct qualifying arterial street improvements that exceed their project's transportation mitigation impact fee share.

### Existing Conditions:

### Project Justification:

This fund will set aside funds to reimburse developers that are required to construct street improvements, as part of project conditions of approval, that are considered to be over sized.

### Fiscal Implications:

Funding for this program will be allocated from transportation impact fee reserves.

### Project Budget Summary:

## Slurry Seal Treatment

### **Project Background:**

Funds for this project will be used to apply a slurry seal treatment to various residential streets as identified by Public Works Department staff. The slurry seal treatment is a mixture of oil and fine rock aggregate that restores and protects the top surface of a street.

### **Existing Conditions:**

Asphalt concrete pavement surfaces deteriorate over time due to loss of oil content from naturally occurring processes and vehicular traffic loads.

### **Project Justification:**

Timely application of a pavement slurry seal treatment provides a roadway with a smooth riding surface, reduces pavement cracking and extends the useful life of the street. This project will provide surface treatment for approximately 10 miles of residential street (225,000 SY).

### **Fiscal Implications:**

Funding for this project will be allocated from gas tax reserves.

### **Project Budget Summary:**

## Survey Monumentation / Mapping

### Project Background:

These funds will be used to re-establish survey monumentation on street re-surfacing projects and to update our survey bench mark datum and mapping.

### Existing Conditions:

The city's survey bench mark datum is used by private engineers in the design of various Public Works infrastructure projects. The bench mark datum is updated by the city approximately every 10 years.

### Project Justification:

State law requires that survey monuments be re-established if altered due to re-surfacing or reconstruction of streets. Updating of our survey bench mark datum periodically is necessary for proper installation of curbs, storm drainage facilities and sanitary sewer lines.

### Fiscal Implications:

Funding for this project will be allocated from storm drainage and sanitary sewer fund reserves.

## Reclamite Seal Treatment

### **Project Background:**

Reclamite is a pavement surface protection and preservation treatment for city streets. The treatment keeps pavement surfaces flexible and reduces asphalt oil content loss.

### **Existing Conditions:**

Asphalt concrete pavement surfaces deteriorate over time due to loss of oil content from naturally occurring processes and vehicular traffic loads.

### **Project Justification:**

Reclamite seal treatments will extend the useful life of asphalt pavement surfaces thereby reducing street maintenance costs. This project will provide surface treatment for approximately five miles of arterial/collector street (175,000 SY).

### **Fiscal Implications:**

Funding for this project will be allocated from gas tax reserves.

### **Project Budget Summary:**

## Pavement Resurfacing Treatment

### Project Background:

Pavement Resurfacing Treatment is a surface protection and pavement preservation treatment for city streets. The treatment process is performed in three applications. The first step is application of a scrub seal oil coating to fill in roadway cracks. Next a fine gravel rock surfacing is applied to add structural integrity to the product and finally a micro-seal coat is applied to provide a smooth driving surface.

### Existing Conditions:

Asphalt concrete pavement surfaces deteriorate over time due to loss of oil content from naturally occurring processes and vehicular traffic loads.

### Project Justification:

Pavement Resurfacing treatments will extend the useful life of asphalt concrete pavement surfaces thereby reducing street maintenance costs. This project will provide surface treatment for approximately 5 miles of collector street (175,000 SY).

### Fiscal Implications:

Funding for this project will be allocated from gas tax reserves.

## Lacey Boulevard Resurfacing (CIR), Mall Drive to Magna Carta Avenue

### **Project Background:**

This project will involve the resurfacing of street pavement within Lacey Boulevard, from Mall Drive to Magna Carta Avenue. Improvements to include recycling of existing pavement, adjusting manhole and gate valve covers, installation of accessibility ramps, asphalt concrete paving and restriping of the roadway.

### **Existing Conditions:**

Lacey Boulevard is a four lane arterial street with a protected left turn lane. Current average daily traffic volume is approximately 15,000 vehicles per day. The existing roadway surface is deteriorating due to traffic loads and weather impacts and is in need of resurfacing.

### **Project Justification:**

This project will extend the useful life of the street by approximately 12-15 years.

### **Fiscal Implications:**

Funding for this project will be allocated from gas tax reserves.

## Lacey Boulevard Resurfacing (CIR), Irwin Street to 11th Avenue

### **Project Background:**

This project will involve the resurfacing of street pavement within Lacey Boulevard, from Irwin Street to 11th Avenue. Improvements to include recycling of existing pavement, adjusting manhole and gate valve covers, installation of accessibility ramps, asphalt concrete paving and restriping of the roadway.

### **Existing Conditions:**

Lacey Boulevard is a four lane arterial street with a protected left turn lane. Current average daily traffic volume is approximately 17,000 vehicles per day. The existing roadway surface is deteriorating due to traffic loads and weather impacts and is in need of resurfacing.

### **Project Justification:**

This project will extend the useful life of the street by approximately 12-15 years.

### **Fiscal Implications:**

Funding for this project will be allocated from gas tax reserves.

## Bicycle Facility Improvements

### **Project Background:**

The City's Pedestrian and Bicycle Master plan was accepted by Council action on February 16, 2016. The updated plan is compatible with the goals and objectives as set forth in the City's General Plan is currently in the process of being updated.

### **Existing Conditions:**

The City's current bicycle facility network is a combination of Class II (striped bike lanes) and the Class III (bike routes or shared lanes) that is incomplete and does not provide a cohesive transportation network.

### **Project Justification:**

This project will fund the installation of new Class II and Class III bicycle paths within existing roadways in conformance with the city's recently accepted Pedestrian and Bicycle Master Plan. The new facilities provide an alternative mode of transportation other than motorized vehicles and will provide air quality benefits as well.

### **Fiscal Implications:**

Funding for this project will be allocated from Congestion Mitigation/Air Quality (CMAQ) funds and Gas Tax Reserves.

### **Project Budget Summary:**

## Traffic Signal at Douty Street and Sixth Street

### Project Background:

This project includes the installation of a traffic signal system at the of Douty Street and Sixth Street. This roadway is currently widened to its' ultimate width.

### Existing Conditions:

The current traffic control at this intersection is a four way stop. This intersection meets current traffic signal warrants and is included in the City's Traffic Signal Priority List.

### Project Justification:

This project will increase traffic flow efficiency and reduce intersection congestion by allowing more free flow traffic movements through the intersection. The project will also provide air quality benefits by reducing vehicle idling times.

### Fiscal Implications:

Funding for this project will be allocated from Congestion Mitigation/ Air Quality (CMAQ) funding and transportation impact fees.

## Capacity Improvements at 11th Avenue and Grangeville Boulevard

### Project Background:

This project will involve widening this intersection to increase traffic capacity and improve safety. Improvements include the installation of a raised median within Grangeville Boulevard, accessibility ramps, and pavement widening to facilitate additional travel lanes.

### Existing Conditions:

Increased traffic volumes and current intersection geometric constraints have lead to increased traffic congestion. In addition, raised medians exist only on the north leg of the intersection.

### Project Justification:

This project will improve traffic flow efficiency, safety, and reduce intersection congestion by the installation of additional travel lanes and raised medians to prohibit conflicting movements.

### Fiscal Implications:

Funding for this project will be allocated from CMAQ funding and gas tax reserves.

### Project Budget Summary:

## Grangeville Boulevard Resurfacing (CIR), 12th Avenue to Centennial Drive

### Project Background:

This project will involve the resurfacing of street pavement within Grangeville Boulevard, from 12th Avenue to Centennial Drive. Improvements to include recycling of existing pavement, adjusting manhole and gate valve covers, installation of accessibility ramps, asphalt concrete paving and restriping of the roadway.

### Existing Conditions:

Grangeville Boulevard is a two lane arterial street with a protected left turn lane. Current average daily traffic volume is approximately 10,000 vehicles per day. The existing roadway surface is deteriorating due to traffic loads and weather impacts and is in need of resurfacing.

### Project Justification:

This project will extend the useful life of the street by approximately 12-15 years.

### Fiscal Implications:

Funding for this project will be allocated from gas tax reserves.

## Traffic Signal at Grangeville Boulevard & 13th Avenue

### Project Background:

This project will involve the installation of a traffic signal at the intersection of Grangeville Boulevard and 13th Avenue. Additional improvements will include pavement transitioning to facilitate the installation of additional travel lanes.

### Existing Conditions:

The current traffic control at this intersection is a four way stop. This intersection meets current traffic signal warrants and is included in the City's Traffic Signal Priority List.

### Project Justification:

This project will increase traffic flow efficiency and reduce intersection congestion by allowing more free flow traffic movements through the intersection. The project will also provide air quality benefits by reducing vehicle idling times.

### Fiscal Implications:

Funding for this project will be allocated from CMAQ funding and Transportation Impact Fees.

## 12th Avenue Widening/Resurfacing, Hanford-Armona Road to Springcrest St.

### Project Background:

This project will involve the widening and reconstruction of 12th Avenue, between Hanford-Armona Road and 300 feet south of Springcrest Street, to facilitate two lanes in each direction of travel plus turn lanes. Improvements include the recycling of existing pavement, adjusting of manholes and gate valves, installation of accessibility ramps, asphalt concrete paving, and restriping of the roadway.

### Existing Conditions:

12th Avenue between Hanford-Armona Road and Springcrest Street is currently a two lane arterial roadway. Current average daily traffic volume is approximately 6,500 vehicles per day. The existing roadway surface is deteriorating due to traffic loads and weather impacts and is in need of resurfacing. Traffic volumes are anticipated to increase substantially with the development of proposed subdivisions in the area.

### Project Justification:

This project will improve traffic flow capacity and safety by providing additional travel lanes and a protected left turn lane. Drainage and pedestrian safety will also be improved with the addition of curb, gutter, sidewalks and street lighting.

### Fiscal Implications:

Funding for this project will be allocated from gas tax reserves.

### Project Budget Summary:

## Signage Replacement

### **Project Background:**

This project would replace four internally illuminated street signs that are out of date and do not meet the current California MUTCD specifications along with replacing for eliminated speed limit signs at two school locations that are out of date and beyond repair.

### **Existing Conditions:**

The city of Hanford maintains internally illuminated street signs to identify each signalized intersection within our jurisdiction. Currently there are four internally illuminated street signs that are unrepairable and outdated. The city of Hanford also provides lighted speed limit signs at two locations for a total of four signs that are currently in significant disrepair and need to be replaced.

### **Project Justification:**

The current internally illuminated street signs are not functioning properly and do not meet current standards. Upgrading the signs would provide better service ability to the general public and emergency response vehicles, while saving energy by replacing them with new LED fixtures. The eliminated school speed limit signs are out of date, faded, and are no longer repairable. Replacing them with high visibility solar powered signage would bring better attention to the school area and provide a safer environment for the students.

### **Fiscal Implications:**

Funding for this project will be allocated from gas tax reserves.

### **Project Budget Summary:**

## Traffic Signal Battery Backup Retrofit

### **Project Background:**

The City operates and maintains 50 traffic signals. Currently the City has 41 of those signals that are equipped with a battery backup system in the event of a short power outage. The current systems we have and use are out of date and becoming ineffective.

### **Existing Conditions:**

Currently the city has 41 of its traffic signals on a battery backup system. There are three different backup systems currently in place. The Clary system has operational life expectancy of 8 to 10 years, and the Sentinel system only provides a four way flash for short period of time. Having three different backup systems is becoming difficult and costly to maintain. In addition, when a battery backup fails we have to wait for parts which could take one or two months to obtain.

### **Project Justification:**

By updating all the city traffic control battery backup systems, the City can essentially ensure zero lag time in the event of a major power outage as the new system will be a simple system aligned for fast exchange between locations. The current systems require the use of car type batteries that are hazardous and costly to dispose of. The new system, which is made of recycled products comes with a five year warranty and can be exchanged for a discount once replacement is necessary.

### **Fiscal Implications:**

Funding for this project will be allocated from gas tax reserves.

## Curb and Gutter Installation

### **Project Background:**

This project involves the installation of new or replacement concrete curb & gutter to facilitate proper street drainage. Projects may include replacement of existing dilapidated curbs & gutter or installation of new curb & gutter in existing developed areas currently void of these improvements.

### **Existing Conditions:**

A portion of the City's streets were not constructed with curb and gutter improvements. These improvements are necessary to ensure proper drainage and to alleviate localized flooding.

### **Project Justification:**

Storm Drainage collection in the City is necessary to reduce localized flooding and damage to existing properties.

### **Fiscal Implications:**

Funding for this project will be allocated for storm drainage reserves.

### **Project Budget Summary:**

		5-Year Funding Allocation

## Increase Flow Capacity of Main Branch of Peoples Ditch

### **Project Background:**

The City, by agreement, has drainage rights with Peoples Ditch Company which allows discharge in Peoples Ditch under certain parameters. This project provides funds for shared maintenance costs and improvements to increase the capacity in both the east and west branches of Peoples Ditch within city limits.

### **Existing Conditions:**

Portions of the ditch can be improved to allow for additional on and off peak pumping into the ditch which assists in lowering the standing water in the City's basins. Pumping to the ditch provides additional capacity in these basins to reduce the potential for flooding.

### **Project Justification:**

Projects would be performed in cooperation with Peoples Ditch Company and would include culvert repair/enlargements, ditch realignment and piping, turn-out basins, control structure modifications, and additional ditch maintenance.

### **Fiscal Implications:**

Funding for this project will be allocated from storm drainage reserves.

### **Project Budget Summary:**

## Storm Drainage System Oversizing Requirements

### Project Background:

The City reimburses developers that are required to upsize their storm drainage improvements to provide additional capacity in compliance with the Storm Drainage Master Plan.

### Existing Conditions:

### Project Justification:

As provided by City Ordinance, these funds will be used to reimburse developers for the costs attributed to over sizing drainage systems to provide service for future growth.

### Fiscal Implications:

Funding for this project will be allocated from storm drainage impact fee reserves.

### Project Budget Summary:

		6-Year Funding Allocation

## Stonecrest Basin Pump Equipment Installation

### **Project Background:**

This project consists of equipping the Stonecrest Basin with an electrical service, control panel, pump, and related piping equipment for dewatering the basin to accommodate additional development and routine maintenance.

### **Existing Conditions:**

This basin was constructed in 1997 with the Stonecrest Subdivision. The basin has a capacity of 36.6 ac.ft. which accommodates the subdivision as well as the discharge from Tank 6 located across the railroad tracks. A storm drain wet well and related piping exist for the pumping of this basin to the People's Ditch.

### **Project Justification:**

This project will provide for dewatering of the basin to provide routine maintenance, assist in mosquito abatement activities, and increase storage capacity.

### **Fiscal Implications:**

Funding for this project will be allocated from storm drainage reserves.

### **Project Budget Summary:**

		6-Year Funding Allocation					
		2017	2018	2019	2020	2021	2022

## Flat Grate Conversion

### Project Background:

This project consists of replacing current outdated flat grate catch basins with catch basins designed to current City Standards.

### Existing Conditions:

These catch basins were installed many years ago and plug up frequently during storm events which requires significant manhours to clean to ensure the system functions correctly.

### Project Justification:

This project will provide for removal and replacement of a significant number of flat grate catch basins in various locations around the City. It will update them to current standards which increase surface flow into the catch basin and allow for debris to be caught while still allowing flow. It will significantly reduce manhours attributed to checking and cleaning these areas during storm events.

### Fiscal Implications:

Funding for this project will be allocated from storm drainage reserves.

### Project Budget Summary:

		6-Year Funding Allocation					
		2017	2018	2019	2020	2021	2022
Expenditure	Program or Project	Construction	Construction				
	Engineering / Inspection	10,000	10,000

## SCADA Installation on Storm Drain Lift Stations

### **Project Background:**

This project consists of installing equipment and programming the existing Wonderware system to utilize SCADA's controls to operate and control Storm Drain lift Stations that pump into People's Ditch during storm events.

### **Existing Conditions:**

Currently City staff have to manually check all lift stations during storm events which requires significant manhours that could be utilized repairing, cleaning, or monitoring other parts of the storm system. The addition of these lift stations to SCADA will allow remote startup and help staff to optimize pumping during storms without having to manually visit each pump.

### **Project Justification:**

This project will allow staff to utilize SCADA to determine if pumps start as required and to minimize high level faults. In addition, during storm events, staff will be able to minimize labor travelling to each station which will assist in better storm response to other issues.

### **Fiscal Implications:**

Funding for this project will be allocated from storm drainage reserves.

### **Project Budget Summary:**

		6-Year Funding Allocation

## Youth Athletic Complex - Storm Drain Outfall Structure

### **Project Background:**

This project consist of replacing an existing Strom Drainage outfall structure located within the YAC Drainage Basin with a new facility to improve Storm Drainage capacity.

### **Existing Conditions:**

The existing outfall structure providing service to the County Complex and Surrounding City Streets is undersized and restricts flow capacity.

### **Project Justification:**

This project will impove drainage service to the County Complex and surrounding City streets by removing a flow restriction in the existing outfall structure.

### **Fiscal Implications:**

Funding for this project will be allocated from storm drainage reserves.

### **Project Budget Summary:**

		6-Year Funding Allocation					
		2017	2018	2019	2020	2021	2022

## Storm Drainage Pump Station No. 39 Upgrade

### **Project Background:**

Storm Drainage Pump Station No. 39 is located at Mulberry Drive and People's Ditch has a large service area and has not been upgraded.

### **Existing Conditions:**

This station was constructed in the 1996 and has not been updated. The condition of the station as well as availability of parts for the aged equipment contributes to the need to replace the existing control panel and pumps.

### **Project Justification:**

This project is necessary to increase system reliability and provide a means for adequately maintaining the pump station by City staff.

### **Fiscal Implications:**

Funding for this project will be allocated from storm drainage reserves.

### **Project Budget Summary:**

## Glendale Avenue Storm Drain Outfall Pipeline

### **Project Background:**

This project will construct a storm drain pipeline to connect east Glendale Avenue to the Hansen Basin to accommodate the future extension of Glendale Avenue to Campus Drive.

### **Existing Conditions:**

There is no existing storm drainage system in this area.

### **Project Justification:**

This project will provide a storm drain connection to the Hansen Basin that will facilitate the orderly development of Glendale Avenue east of 12th Avenue and the future connection to Campus Drive.

### **Fiscal Implications:**

Funding for this project will be allocated from storm drainage reserves.

### **Project Budget Summary:**

## Sand Slough Houston Avenue Pipeline Project

### **Project Background:**

This project will pipe the north end of the existing Sand Slough across Houston Avenue into the southern portion of Sand Slough in order to provide additional capacity of the slough.

### **Existing Conditions:**

The slough has been utilized as a drainage basin and storm water storage for many years. Due to development over the years, the existing size of the slough north of Houston Avenue is inadequate and needs to be expanded.

### **Project Justification:**

This project is identified in the Storm Drain Master plan as a proposed improvement to provide additional capacity to the system and to connect sand slough which will increase storage both north and south of Houston Avenue.

### **Fiscal Implications:**

Funding for this project will be allocated from storm drainage capital and storm drain impact fee reserves.

### **Project Budget Summary:**

## Lamplight Estates Main Replacement

### **Project Background:**

This project will provide for the replacement of an undersized main within Lamplight Estates subdivision, located South of Leland Drive, and west of 9-1/4 Avenue.

### **Existing Conditions:**

The collector mains in this area are undersized to serve proposed future development on the east side of town. The proposed modifications will increase the ability to pump down the Freedom Park Drainage Basin which will in turn enhance the recreational value of the park drainage facility.

### **Project Justification:**

This project is identified in the Storm Drain Master plan as a proposed improvement to provide additional capacity to the system.

### **Fiscal Implications:**

Funding for this project will be allocated from storm drainage reserves.

### **Project Budget Summary:**

## Mussel Slough / YMCA Pump Installation

### **Project Background:**

This project consists of equipping the YMCA Basin with an electrical service, control panel, pump, and connection to existing piping for dewatering the basin to accommodate additional development and routine maintenance.

### **Existing Conditions:**

This basin serves as a terminus basin for other basins in the Storm Drain system. The storm drain wet well and piping exist for the pumping of this basin to People's Ditch.

### **Project Justification:**

This project will provide for dewatering of the basin to provide routine maintenance, assist in mosquito abatement activities, and increase storage capacity.

### **Fiscal Implications:**

Funding for the project will be allocated from storm drainage capital and storm drainage impact fee reserves.

## Magnolia Street / Amber Way Main Replacement

### **Project Background:**

This project consists of replacing undersized storm drainage mains located in Magnolia Street and Amber Way in order to provide adequate drainage capacity to the area.

### **Existing Conditions:**

Existing storm drain mains are undersized and cause localized flooding. During prolonged storm events the system will backup excessively into the street and cause safety concerns.

### **Project Justification:**

This project will increase the capacity of the system in accordance with the Storm Drainage Master Plan.

### **Fiscal Implications:**

Funding for this project will be allocated from storm drainage reserves.

### **Project Budget Summary:**

## Brown Street Main Addition - HWY 198 to Brown Street Basin

### Project Background:

This project consists of installing a new main in Brown Street to provide additional drainage capacity for the downtown area.

### Existing Conditions:

The storm drainage system in the downtown area is under capacity and needs to be improved. During prolonged storm events this system will backup excessively into the street and cause safety concerns.

### Project Justification:

This project will improve drainage service to portions of downtown in accordance with the Storm Drainage Master Plan.

### Fiscal Implications:

Funding for this project will be allocated from storm drainage reserves.

## Sanitary Sewer Main Oversizing Requirements

### Project Background:

The City reimburses developers that are required to upsize their main installation to provide additional capacity in compliance with the City's Sanitary Sewer Master Plan.

### Existing Conditions:

### Project Justification:

As provided by City Ordinance, these funds will reimburse developers for the costs attributed to oversized sewer mains to provide service for future growth demands.

### Fiscal Implications:

Reimbursement funds for oversized improvements will be allocated from Wastewater Impact Fee reserves.

## Unscheduled Main Extensions / Replacements

### Project Background:

These funds are for unanticipated projects which occur when a developer is connecting to our sanitary sewer system and requires the main to be extended beyond the project boundaries. These funds could also be utilized for replacement of undersized or deteriorated sewer mains.

### Existing Conditions:

### Project Justification:

These funds will be used to reimburse developers for costs attributed to extending sewer mains beyond their project frontage in order to provide service to their project. This account could also be utilized for unscheduled emergency repairs on deteriorated or undersized mains within the sewer system.

### Fiscal Implications:

Funding for Unscheduled Main Extensions/Replacements will be allocated from Wastewater Capital reserves.

## Sanitary Sewer Video Inspection

### Project Background:

This project involves video camera inspection of the City's sanitary sewer mains and recording the resulting data. All mains are to be videotaped and catalogued as to their current condition.

### Existing Conditions:

The existing condition of each main is to be analyzed and catalogued to determine if and when repair, rehabilitation, or replacement is necessary.

### Project Justification:

In order to determine the existing condition of a sewer main, a video inspection needs to be completed to determine if there are intrusions, breaks, slope restrictions, and/or deterioration of pipe.

### Fiscal Implications:

Funding for Video Inspection Services will be allocated from Wastewater Capital reserves.

### Project Background:

The City reimburses developers that are required to upsize the trunk sewer main within 12th Avenue to provide additional capacity for future growth.

### Existing Conditions:

### Project Justification:

As provided by City Ordinance, these funds will reimburse developers for the costs attributed to oversized sewer mains to provide service for future growth demands.

### Fiscal Implications:

Funding for 12th Avenue Sewer Trunk Main Oversizing will be allocated from 12th Avenue Sewer Benefit Assessment District reserves.

## Manhole Repair and Coating Project

### Project Background:

This project provides for repair and coating of damaged sanitary sewer manholes and lift stations where corrosion is affecting concrete surfaces.

### Existing Conditions:

### Project Justification:

In order to limit damage to sewer facilities from corrosion, this project provides for repairing and coating the facilities.

### Fiscal Implications:

Funding for the Manhole Repair and Coating Project will be allocated from Wastewater Capital reserves.

### Project Budget Summary:

## Sanitary Sewer Lift Station No. 47 Upgrade

### Project Background:

This station is located at 9-1/4 Avenue and Lacey Boulevard. This project will replace both of the obsolete submersible pumps along with the guide rails, check valves, and the electrical control panel.

### Existing Conditions:

This station was constructed in 1985. With the additional development on east Lacey Boulevard, the equipment is undersized and parts are no longer available for repairs. This station has an increasing service area and requires modification to electrical equipment and pumps.

### Project Justification:

The original parts from this lift station have served their useable life. The new pumps, guide rails, and electrical control panel will allow for a decreased maintenance effort and an increasing service area.

### Fiscal Implications:

Funding for the Sanitary Sewer Lift Station No. 47 Upgrade will be allocated from Wastewater Capital reserves.

### Project Budget Summary:

## Sanitary Sewer Lift Stations No. 16/54 Electrical Panel Upgrade

### Project Background:

This project will replace the obsolete electrical control panels for two existing sanitary sewer lift stations located along Kensington Way and Rodgers Road.

### Existing Conditions:

These stations were both constructed prior to 1994 and the equipment has not been updated since construction. The electrical panels have served their useful life and parts are no longer available for repairs.

### Project Justification:

Installation of new control panels will reduce operational maintenance time and costs and increase system reliability.

### Fiscal Implications:

Funding for the Sanitary Sewer Lift Stations No. 16 and 54 Electrical Panel Upgrade will be allocated from Wastewater Capital reserves.

### Project Budget Summary:

## Sanitary Sewer Lift Station No. 41 Upgrade

### Project Background:

This lift station is located on Industry Avenue in the Industrial Park and was constructed in 1977 and has had minimal upgrades to facilitate more efficient operation.

### Existing Conditions:

This lift station is antiquated and has not been upgraded since its completion. Due to age of the equipment, excessive wear, and the inability to get replacement parts, the control panel, pump, and deck lid are in need of replacement.

### Project Justification:

Due to age of the equipment, excessive wear, and the inability to get replacement parts, the control panel, pump, and deck lid are in need of replacement.

### Fiscal Implications:

Funding for the Sanitary Sewer Lift Station No. 41 Upgrade will be allocated from Wastewater Capital reserves.

## Wastewater Treatment Plant Expansion Reserve

### Project Background:

These funds will be deposited into a separate account to fund the next expansion of the Wastewater Treatment Plan (WWTP).

### Existing Conditions:

### Project Justification:

Annual contributions to this account will reduce the amount of long term financing that will be needed to increase treatment capacity at the WWTP from 8.0 million gallons per day (MGD) to 10.5 MGD. The construction costs are estimated at a present value of \$8,000,000.00.

### Fiscal Implications:

Funding for the WWTP expansion will be allocated from Wastewater Capital reserves.

## Soil Cement Sludge Bed Renovation Project

### Project Background:

The Wastewater treatment plant has six soil- cement lined sludge beds that were constructed in 2003. This project provides for repair of the sludge beds over a two year period.

### Existing Conditions:

Over the years the existing soil-cement has deteriorated in to a powder form making it difficult to pile and remove dried sludge without removing the soil-cement that is in powder form . This effectively increases our biosolids removal cost.

### Project Justification:

The sludge beds should have a concrete like surface with sufficient strength to support the operation of front-end loaders and other sludge handling equipment . This project provides for renovation of the sludge beds to a concrete surface

### Fiscal Implications:

Funding for the Soil Cement Sludge Bed Renovation Project will be allocated from Wastewater Capital reserves.

## 9th Avenue Sewer Trunk Main Improvement Project

### **Project Background:**

The City has been awarded a grant through the United States Economic Development Administration to assist in funding the extension of a new Sanitary Sewer Trunk main from the Wastewater Treatment Plant to 9th Avenue and Lacey Boulevard.

### **Existing Conditions:**

The City has been limited in its' ability to develop the East side of the City due to the lack of sewer infrastructure. No existing system with adequate capacity is available to future developments.

### **Project Justification:**

The award of the grant funding makes the City's ability to construct this project a reality. The extension of this trunk main will allow future development on the East side of town to occur and expand the City's ability to provide service to its customers.

### **Fiscal Implications:**

Funding for the 9th Avenue Sewer Trunk Main Improvement Project will be allocated from Wastewater Capital reserves and a grant from the United States Economic Development Administration.

### **Project Budget Summary:**

## Unscheduled Main Extensions / Replacements

### Project Background:

These funds are for unanticipated projects which occur when a developer is connecting to our water system and requires the main to be extended beyond the project boundaries. These funds could also be utilized for replacement of undersized or deteriorated water mains.

### Existing Conditions:

### Project Justification:

These funds will be used to reimburse developers for the costs attributed to extending water mains beyond their project frontage in order to provide service to their project. This account could also be utilized for unscheduled emergency repairs on deteriorated or undersized mains within the water system.

### Fiscal Implications:

Funding for Unscheduled Main Extensions/Replacements will be allocated from water capital reserves.

## Water Main Oversizing Requirements

### Project Background:

The City reimburses developers that are required to upsize their main installation to provide additional capacity in compliance with the Water Master Plan.

### Existing Conditions:

### Project Justification:

As provided by City Ordinance, these funds will reimburse developers for the costs attributed to oversized water mains to provide service for future growth demands.

### Fiscal Implications:

Reimbursement funds for over sizing improvements will be allocated from water impact fee reserves.

## Meter Replacement Program

### Project Background:

This project will set aside funds into an account that will be utilized in the future to replace meters on a citywide basis that are no longer reading accurately and are unable to be repaired.

### Existing Conditions:

The City replaced almost all of the 14500 meters within the City's system in 2010. This was due to the age of the meters and their reliability. Since the water system operates on the sale of water as a commodity, it is imperative that the meters read accurately. The normal replacement cycle for a meter is 15 years.

### Project Justification:

Setting aside funds to replace meters on a Citywide basis follow City policy regarding preparing for future large expenses by establishing replacemnet funds and collecting those costs on an annual basis to plan for large future expenditures.

### Fiscal Implications:

Funding for the Meter Replacement Program will be allocated from water capital reserves.

### Project Budget Summary:

## AMR Replacement Program

### Project Background:

This project will set aside funds into an account that will be utilized in the future to replace the automated meter reading devices on a citywide basis that are no longer reading accurately and are unable to be repaired.

### Existing Conditions:

The City converted all of the 14500 meters within the City's system to an automated meter reading program in 2010. Since the water system operates on the sale of water as a commodity, it is imperative that the meter reading devices read accurately. The normal replacement cycle for a reading device is 10 years.

### Project Justification:

Setting aside funds to replace meter reading devices on a Citywide basis follows City policy regarding preparing for future large expenses by establishing replacemnet funds and collecting those costs on an annual basis to plan for large future expenditures.

### Fiscal Implications:

Funding for the Meter Replacement Program will be allocated from water capital reserves.

## AMR System Upgrade / Replacement

### Project Background:

This project will replace all of the old Datamatic equipment that is no longer under warranty and no longer serviceable due to bankruptcy of the company.

### Existing Conditions:

The City has approximately 8000 metered connections that are still utilizing the Datamatic equipment that is no longer under warranty and no longer serviceable. The City has migrated to Zenner's AMR system and has had significant success.

### Project Justification:

The existing Datamatic product is failing at a significant rate. Staff is unable to continue to service those devices and is required to replace them as they fail. Staff is unable to keep up with the failure rates and is having to hand read more meters which is causing significant labor costs.

### Fiscal Implications:

Funding for the AMR System Upgrade / Replacement will be allocated from water capital reserves.

### Project Budget Summary:

## Magnetic Meter Replacement

### Project Background:

This project will replace all of the magnetic meters on City wells that measure flow out of the well to ensure accurate reporting of water pumped from underground.

### Existing Conditions:

### Project Justification:

### Fiscal Implications:

Funding for the Magnetic Meter Replacement will be allocated from water capital reserves.

### Project Budget Summary:

## Water System Security Upgrades

### Project Background:

This project will fund the installation of system security measures as identified in the City Water Vulnerability Assessment. The project proposes lighting, hatch intrusion shut down systems, and perimeter alarms.

### Existing Conditions:

### Project Justification:

In compliance with the U.S. Bureau of Homeland Security, the City developed a Vulnerability Study to determine what types of security measures should be taken to ensure delivery and quality of the water system. This project provides funds to protect our well sites and tank sites from potential contamination.

### Fiscal Implications:

Funding for the Water System Security Upgrade Project will be allocated from water capital reserves.

### Project Budget Summary:

## Water Main Replacement Program

### Project Background:

This project will replace existing small mains and older mains that do not meet City standards for fire protection or for delivery of water to consumers.

### Existing Conditions:

### Project Justification:

Projects will include replacement of steel and cast iron mains, undersized mains causing low pressure areas, and in-fill in areas where minor adjustments to the distribution system will enhance system performance.

### Fiscal Implications:

Funding for the Water Main Replacement Program will be allocated from water capital reserves.

## Flat to Meter Conversion

### Project Background:

This project will replace all of the old flat rate accounts within the City to metered services.

### Existing Conditions:

The City has approximately 2500 non-metered connections that are still within the City's service area. The City has been required by the State of California to expedite the installation of meters on all accounts.

### Project Justification:

### Fiscal Implications:

Funding for the Flat to Meter Conversion will be allocated from water capital reserves.

## New Water Supply Well

### **Project Background:**

This project funds the installation of a new deep water well and associated pumping equipment to provide additional City water supply and service reliability.

### **Existing Conditions:**

The City water system currently has 13 active water supply wells and one standby emergency well. The wells have a total production capacity of approximately 26 million gallons per day.

### **Project Justification:**

As development occurs the need to provide additional water capacity and service reliability is necessary. This project would provide funding to install a new deep well as needed.

### **Fiscal Implications:**

Funding for the new water supply well will be allocated from water capital reserves.

### **Project Budget Summary:**

## Industrial Park Water Storage Facility

### **Project Background:**

the City's existing Industrial Park Infrastructure Master Plan identifies the need to provide additional water storage capacity to support expansion of the Industrial Park. New developments are currently required to provide their own fire flow storage facilities on site to meet the City's fire flow standards.

### **Existing Conditions:**

The City's Industrial Park currently has one 500,000 gallon water storage tank and pumping facility. The City's Industrial park Infrastructure Master Plan identifies the need to provide approximately 1,000,000 gallons of additional storage to meet the demands of water supply and fire flow capacity for future development.

### **Project Justification:**

Additional water supply storage is necessary to support expansion of the Kings Industrial Park, which provides jobs and economic benefits to our community. The additional infrastructure will allow the City to be more competitive in our continued efforts to attract new industrial facilities to our Industrial Park.

### **Fiscal Implications:**

Funding for the Industrial Park Water Storage Facility will be allocated from water capital reserves.

### **Project Budget Summary:**

## Water Distribution Main Extension Program

### **Project Background:**

This project includes replacing undersized distribution mains or extending distribution mains in various locations throughout the City to enhance system performance.

### **Existing Conditions:**

### **Project Justification:**

Projects will include replacing undersized distribution mains and extending distribution mains within in-fill and growth areas to enhance system performance and to facilitate orderly growth of the City.

### **Fiscal Implications:**

Funding for the Water Distribution Main Extension Program will be allocated from water capital and water impact fee reserves.

### **Project Budget Summary:**

## Demolition of Abandoned Water Storage Tanks and Buildings

### **Project Background:**

This project funds the demolition and disposal of two existing dilapidated buildings and the abandoned elevated water storage tanks that are no longer in use.

### **Existing Conditions:**

Water Storage Tanks No. 1 and 2, and two out buildings are located at Fifth Street and Irwin Street. Water Storage Tank No. 3 is located within Earl F. Johnson Park. These structures are no longer in service for the water utility division and need to be removed.

### **Project Justification:**

Removal of the tank and out buildings will reduce the amount of maintenance time and money that is spent covering graffiti and deterring vandalism at this sites.

### **Fiscal Implications:**

Funding for the Demolition of Abandoned Water Storage Tanks and Buildings will be allocated from water capital reserves.

### **Project Budget Summary:**

## Downtown Reinvestment Zone

### Project Background:

This project includes funding of infrastructure improvements as well as Downtown improvement loans and grants.

### Existing Conditions:

Typical infrastructure that exists in the downtown includes parking lots, street trees, tree grates, street lights, signage, and planter bulbs. Some of these items are in disrepair and need to be updated to current standards.

### Project Justification:

Downtown Reinvestment Zone Funds are utilized to encourage public/private partnerships to support development in the Downtown.

### Fiscal Implications:

Funds for this program will be allocated from Accumulated Capital Outlay (ACO) Reserves.

### Project Budget Summary:

## Parking Lot / Alley Seal Coat Treatment

### Project Background:

These funds are used to seal City parking lots and/or alleys to extend the useful life of the pavement surface.

### Existing Conditions:

### Project Justification:

Pavement seal coat treatments protect the wearing surface of parking lots and alleys, inhibit water infiltration, and extend the serviceable life of asphalt concrete surfaces.

### Fiscal Implications:

Funds for the Parking Lot/Alley Seal Coat Treatment Project shall be allocated from Central Parking and Business Improvement District Funds.

### Project Budget Summary:

## Downtown 2010 Plan Projects

### Project Background:

This project provides funds to implement projects identified in the Downtown 2010 Plan.

### Existing Conditions:

The Downtown 2010 Plan was adopted in 1997. The plan identified projects to be completed that would enhance the aesthetics and feel of the Downtown Area. The plan included projects for parking lot upgrades, Civic Center Park renovation, streetscape improvements, landscaping and street trees, and street light upgrades.

### Project Justification:

This project provides funds on an annual basis for implementation of the Downtown 2010 Plan.

### Fiscal Implications:

Funding for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

### Project Budget Summary:

## China Alley Streetscape Improvements

### **Project Background:**

This project intends to provide funding for the restoration of China Alley and enhancing the streetscape of the China Alley area of Downtown Hanford.

### **Existing Conditions:**

China Alley was constructed in the late 1800's. The alley is located in the Downtown Hanford Enhancement Project Area and in the Downtown East Planning Study Area. Some of the buildings and streets in China Alley are in need of repair and restoration in order to bring this area up to current standards.

### **Project Justification:**

China Alley is a jewel in the heart of Downtown Hanford. Many visitors each year visit China Alley making it a significant tourist attraction for the City. This project will assist in restoring China Alley to its former glory.

### **Fiscal Implications:**

Funding for this program will be allocated from Accumulated Capital Outlay (ACO) Reserves.

### **Project Budget Summary:**

## Police Department Parking Lot Expansion

### **Project Background:**

This project will provide for the reconfiguration of existing parking spaces located east of the Police Station to provide for additional and more efficient parking.

### **Existing Conditions:**

Existing parking areas located east of the police station (east of alley) are inefficient and function poorly.

### **Project Justification:**

The reconfiguration of parking in this area will add four parking stalls and allow for more efficient use of the space.

### **Fiscal Implications:**

Funds for the Police Department Parking Lot Expansion Project shall be allocated Accumulated Capital Outlay (ACO) Reserves.

## Hanger Taxilane Rehabilitation - Phases 2 & 3

### Project Background:

Project includes rehabilitation of the hanger taxilanes.

### Existing Conditions:

The taxilanes to the hangers are in various stages of decline based upon the age of the pavement. The existing pavement surface is in need of repair.

### Project Justification:

The hanger taxilanes are necessary for safe operation function of the Airport. The pavement surface is in disrepair and in need of rehabilitation. This project will extend the useful life of the facility.

### Fiscal Implications:

Federal Aviation Administration(FAA) provides funding for this project which requires a 10% match from Airport Capital Reserves.

### Project Budget Summary:

## PCN Evaluation and Analysis

### **Project Background:**

This project will evaluate the existing pavement conditions to establish the Pavement Classification Number (PCN) which indicates the strength of a runway, taxiway, or airport apron and is required now by the Federal Aviation Administration (FAA)

### **Existing Conditions:**

As part of the requirements for submitting pavement rehabilitation projects to the FAA, the City needs to establish PCN's at the Hanford Municipal Airport.

### **Project Justification:**

The project requires significant geotechnical testing and analysis to determine the PCN's in order to determine the need for pavement rehabilitation and meet the FAA grant requirements.

### **Fiscal Implications:**

Federal Aviation Administration(FAA) provides funding for this project which requires a 10% match from Airport Capital Reserves.

## Runway 14-32 Pavement Slurry Seal

### **Project Background:**

Project includes pavement sealing and resurfacing of Runway 14-32.

### **Existing Conditions:**

The existing runway needs to be slurry sealed approximately every 5-7 years to ensure pavement durability and reliability and to comply with the guidelines for pavement management by the Federal Aviation Administration.

### **Project Justification:**

This project includes design and construction of the runway slurry seal to improvement the pavement's useable life.

### **Fiscal Implications:**

Federal Aviation Administration(FAA) provides funding for this project which requires a 10% match from Airport Capital Reserves.

## Pavement Treatment Various Streets

### Project Background:

This project provides funds to perform various pavement rehabilitation / surfacing treatments to extend the useful life of streets in the Industrial Park. Pavement treatment may include reclamite, crack filling, cape seal coating or deep patching.

### Existing Conditions:

The Kings Industrial Park consists of 1,000 acres of developed and vacant land. The park is mostly developed with most infrastructure in place. Infrastructure in the park dates back to the 1970's. Streets in the park are heavily used by semi-trucks and vehicles and as a result are in varying degrees of disrepair.

### Project Justification:

The Kings Industrial Park provides significant jobs to the City. Infrastructure must be in good repair in order to attract new businesses and keep the existing businesses content. This is an effective way to make the Industrial Park more business friendly. This will attract new investment, core jobs and lead to a fully occupied Industrial Park.

### Fiscal Implications:

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

### Project Budget Summary:

## Landscape Renovation

### **Project Background:**

This project provides for the renovation of landscaping along the frontage of 11th Avenue from Industry Avenue to Iona Avenue and along Iona Avenue between 11th Avenue and Burlington Northern Santa Fe Railroad.

### **Existing Conditions:**

The Kings Industrial Park consists of 1,000 acres of developed and vacant land. The park is developed with most infrastructure in place. There are 18 businesses in the park. Landscaping currently exists in the right-of-way along Iona Avenue, 11th Avenue, and Industry Avenue.

### **Project Justification:**

Landscaping is important for business attraction and retention. This project will renovate existing landscaping along the street frontages of Iona, 11th and Industry Avenues. Work will include installation of a new irrigation system and planting of additional trees and shrubs.

### **Fiscal Implications:**

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

### **Project Budget Summary:**

## Identification Signs

### **Project Background:**

This project provides for the construction of two (2) monument-type Industrial Park entrance signs strategically located at the intersections of 11th and Idaho Avenues and 10th and Idaho Avenues.

### **Existing Conditions:**

The Kings Industrial Park consists of 1,000 acres of developed and vacant land. The park is developed with most infrastructure in place. There are 18 businesses in the park. There are two existing industrial park signs: one located at the southeast corner of Iona Avenue and Crown Avenue, and one located at the northeast corner of 11th Avenue and Industry Avenue.

### **Project Justification:**

Signage is important in order for businesses to be found in the Industrial Park and for business attraction. Additional signage is necessary subsequent to the Industrial Park expansion south of Industry Avenue. There is currently no signage north of Industry Avenue.

### **Fiscal Implications:**

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

### **Project Budget Summary:**

## Landscape R-O-W Areas

### **Project Background:**

This project provides for the installation of landscaping along the frontage of 11th Avenue from Industry Avenue to Idaho Avenue and on Idaho Avenue between 11th Avenue and the Burlington Northern Santa Fe Railroad.

### **Existing Conditions:**

The Kings Industrial Park consists of 1,000 areas of developed and vacant land. The park is developed with most infrastructure in place. There are 18 businesses in the park. Landscaping currently exists in right-of-way along Iona Avenue, 11th Avenue, and Industry Avenue.

### **Project Justification:**

Landscaping is important for business attraction and retention. Additional landscaping is necessary along 11th Avenue and Idaho Avenue, which serves as the western and southern boundaries of the Industrial Park. This project will complete the landscaping on the west side of the park.

### **Fiscal Implications:**

Funds for this project will be allocated from Accumulated Capital Outlay (ACO) Reserves.

LOANS RECEIVABLECity of Hanford General Fund

The Accumulated Capital Outlay Fund has loaned funds to the City General Fund to provide for purchase of 14 police patrol vehicles. The loan is to be repaid as General Funds are available with interest at the current State of California Local Agency Investment Fund rate which is 0.25%.

Term:	04/17/13 - until paid
Interest Rate:	0.25%
Original Issue:	\$ 375,470

Airport Enterprise Fund

The Accumulated Capital Outlay Fund loaned \$253,530.62 to the Airport Enterprise Fund in 1988 and 1989 for abatement of toxic soils in an airport drainage basin. An additional net \$171,938 was advanced from 1995 to 2004 as local matching funds for FAA grants. It appears that revenue generated from the airport will not support interest bearing debt. Under this premise and with debt service revenue of about \$10,000, it will take approximately 43 years to repay the loan.
